The Winter's Tale, one of Shakespeare's later romantic comedies, offers a striking and challenging mixture of tragic and violent events, lyrical love-speeches, farcical comedy, pastoral song and dance, and, eventually, dramatic revelations and reunions.

An accessible, introductory text on contemporary China, this book covers the social, economic, and political factors responsible for China's revolutionary changes, and interweaves this structural analysis with a consideration of social changes at the micro and macro levels.

The U.S. National Academies (NAS) and the Russian Academy of Sciences (RAS), building on a foundation of years of interacademy cooperation, conducted a joint project to identify U.S. and Russian views on what the international nuclear security environment will be in 2015, what challenges may arise from that environment, and what options the U.S. and Russia have in partnering to address those challenges. The project's discussions were developed and expanded upon during a two-day public workshop held at the International Atomic Energy Agency in November 2007. A key aspect of that partnership may be cooperation in third countries where both the U.S. and Russia can draw on their experiences over the last decade of non-proliferation cooperation. More broadly, the following issues analyzed over the course of this RAS-NAS project included: safety and security culture, materials protection, control and accounting (MPC&A) best practices, sustainability, nuclear forensics, public-private partnerships, and the expansion of nuclear energy.

Early in the year, our North American forests come to life as native wildflowers start to push up through patches of snow. With longer days and sunlight streaming down through bare branches of towering trees, life on the forest floor awakens from its winter sleep. Plants such as green dragon, squirrel corn, and bloodroot interact with their pollinators and seed dispersers and rush to create new life before the trees above leaf out and block the sun's rays. Wake Up, Woods showcases the splendor of our warming forests and offers clues to nature's annual springtime floral show as we walk in our parks and wilderness areas, or even in shade gardens around our homes. Readers of Wake Up, Woods will see that Gillian Harris, Michael Homoya and Shane Gibson, through illustrations and text, present a captivating look into our forests' biodiversity, showing how species depend on plants for food and help assure plant reproduction. This book celebrates some of nature's most fascinating moments that happen in forests where we live and play.

Capturing a unique historical moment, this book examines the changes in urban life since the collapse of the Soviet Union from an ethnographic perspective, thus addressing significant gaps in the literature on cities, Central Asia and post-socialism. It encompasses Tashkent, Almaty, Astana and Ulan-Ude: four cities with quite different responses to the fall of the Soviet Union. Each chapter takes a theme of central significance across this huge geographical terrain, addresses it through one city and contextualizes it by reference to the other sites in this volume. The structure of the book moves from nostalgia and memories of the Soviet past to examine how current changes are being experienced and imagined through the shifting materialities, temporalities and political economies of urban life. Privatization is giving rise to new social geographies, while ethnic and religious sensibilities are creating emergent networks of sacred sites. But, however much ideologies are changing, cities also provide a constant lived mnemonic of lost configurations of ideology and practice, acting as signposts to bankrupted futures. Urban Life in Post-Soviet Asia provides a detailed account of the changing nature of urban life in post-Soviet Asia, clearly elucidating the centrality of these urban transformations to citizens' understandings of their own socio-economic condition.

On her fourth Leap birthday, when she turns sixteen, Josie has a number of momentous experiences, including taking her driver's test, auditioning for a school play, and celebrating with her family and friends.

The X-Men are back in the cinema. Wolverine, Professor X, Cyclops, Jean Grey and the rest of the team return in X2, facing a new threat so dangerous that former enemy Magneto must join their ranks to defeat it.

In this chilling portrait of America's Sin City, lady luck is just as likely to dispense cold hard cash as a cold-hearted killing.

When Anne Boleyn falls to the executioner's ax on a cold spring morning in 1536, Anne Seymour knows her family faces peril. As alliances shift and conspiracies multiply, the Seymours plot to establish their place in the treacherous court of King Henry VIII, where a courtier's fate is decided by the whims of a hot-tempered and fickle monarch. Lady Anne's own sister-in-law, Jane Seymour, soon takes Anne Boleyn's place as queen. But if Jane cannot give King Henry a son, history portends that she, too, will be executed or set aside and her family with her. In desperation, Lady Anne throws herself into the intoxicating intrigue of the Tudor court, determined to ensure the success of the new queen's marriage and the elevation of the Seymour family to a more powerful position. Soon her machinations earn her a reputation as a viper in a den of rabbits. In a game of betrayal and favor, will her family's rise be worth the loss of her soul?''
