One of UNESCO's most important publishing projects in the last thirty years, the General History of Africa marks a major breakthrough in the recognition of Africa's cultural heritage. Offering an internal perspective of Africa, the eight-volume work provides a comprehensive approach to the history of ideas, civilizations, societies and institutions of African history. The volumes also discuss historical relationships among Africans as well as multilateral interactions with other cultures and continents.

Shri Mataji writes that “ India is a very ancient country and it has been blessed by many seers and saints who wrote treatises about reality and guidelines on how to achieve it. ” This is just such a book. This book is both an introduction to Sahaja Yoga, describing the nature of the subtle reality within each of us, and a step-by-step handbook on how to be a good Sahaja Yogi, the nature of Sahaj culture, how to be a leader and how to raise children. “ The knowledge of Sahaja Yoga cannot be described in a few sentences or one small book, but one should understand that all this great work of creation and evolution is done by some great subtle organization, which is in the great divine form. ”

Cambridge Monographs in African Archaeology 45 Series editor: John Alexander

"The book first places Africa in the context of world history at the opening of the seventh century, before examining the general impact of Islamic penetration, the continuing expansion of the Bantu-speaking peoples, and the growth of civilizations in the Sudanic zones of West Africa"--Back cover.
