A big book of Bob the Builder stories. of fun adventures  
Perfect for bedtime reading.

It's been raining for days and there's mud everywhere. Muck loves being dirty, but Bob decides the machines need a clean. However, things don't quite go as planned. Read along with the first side of the tape, then listen to the story on the second side with music and sound effects.

Following the success of the Cracking Contraptions Manual, Wallace has pulled the dust sheets off a further 20 of his ingenious inventions, from the Mind Manipulation-O-Matic and Bun Vac 6000 (Curse of the Were Rabbit) to the Jumbo Generator and Steam Chair (World of Inventions). Cracking Contraptions 2 again features superbly detailed cutaway drawings by Graham Bleathman, informative technical descriptions and color photographs throughout. This time, as well as reprising his role as editor, Wallace plans to take control of the entire print production process.

Muck is helping Bob build a train ride at the Dinosaur Fun Park, but they find dinosaur bones in the ground! Will Muck be able to build the train ride in time?

Following the success of the Haynes Thunderbirds Manual, the same author/illustrator team turn their attention to Captain Scarlet, another iconic sci-fi creation of the late Gerry Anderson. This fascinating manual is a technical guide to Spectrum, the global security service of 2068, and features background information, a history of its creation, profiles of leading agents, confidential details of Spectrum's most valuable weapon in the fight against the Mysterons, and fully

annotated cutaway drawings of Spectrum vehicles. The book finishes with comprehensive Mission Files, making it the complete and essential manual for all Spectrum Agents.

The Astute-class is the largest, most advanced and most powerful attack submarine ever operated by the Royal Navy, combining world-leading sensors, design and weaponry in a versatile vessel. The submarines are nuclear-propelled and fuelled by a nuclear reactor powerful enough to supply a city the size of Southampton. Its advanced technology means the submarines will never need to be refuelled. They employ the latest technology such as the Sonar 2076 that detects the sound of enemy submarines using the largest number of hydrophones ever fitted to a submarine. Linked with powerful onboard electronics these provide the submarines with outstanding sensitivity. The Astute submarines are armed with the latest versions of Spearfish heavy-weight torpedoes and Tomahawk land-attack cruise missiles.
