This is...a great improvement to other texts I've used and I plan to continue using it." -Dr. Carolyn Berger, Chair, Department of Counseling, Nova Southeastern University Fully updated to serve the needs of school counselors in training, this remains the only text to present a comprehensive, developmental, and practical approach to preparing school counselors to conceptualize the career development and college-readiness needs of P-12 students. The text provides school counselors and educators concrete examples of how to select, implement, and evaluate the outcomes of interventions grounded in various career counseling theories and addresses career development and college readiness needs by grade level. Also included is expanded information on diversity; reflections and advice from actual school counselors; updated statistics, references, and appendices; and an updated Instructor's Manual, test bank, and PowerPoint slides.
