Hilton/Maher/Selto (HMS) addresses traditional cost concepts, but makes cost accounting functional by focusing on measuring and managing costs. HMS maintains that, Costs don't just happen, and with a pro-active approach toward costs, accountants can add value to an organization. Faculty will appreciate the new and more conventional chapter organization in the first two sections of the text.

throughout the book are from all over the world and represent manufacturing, retail, not-for-profit, and service firms in many different countries. Completely restructured and rewritten text - The book has been rewritten, restructured and also shortened significantly to align content closer with international courses. Integral use of spreadsheets - Spreadsheet software is used for explaining techniques and making applications more realistic. In depth research - Summaries of international research studies that address important cost management issues have been updated and more references to recent research findings have been added. Intuitive explanation of accounting - The authors show directly how events impact the balance sheet and profit and loss account.

We are pleased to present this Global Edition, which has been developed specifically to acquaint students of business with the fundamental tools of managerial accounting and to promote their understanding of the dramatic ways in which business is changing. The emphasis is on teaching students to use accounting information to best manage an organization. Each chapter is written around a realistic business or focus company that guides the reader through the topics of that chapter. There is significant coverage of contemporary topics such as activity-based costing, target costing, the value chain, customer profitability analysis, and throughput costing while also including traditional topics such as job-order costing, budgeting, and performance evaluation. Many of the real-world examples in the Management Accounting Practice boxes have been revised and updated to make them more current and several new examples have been added. This Global Edition has been adapted to meet the needs of courses outside the United States and does not align with the instructor and student resources available with the U.S. edition.

Japan has achieved the world's highest life-expectancy under a universal health coverage system. The purpose of this book is to

discuss effective management accounting methods for solving various issues now faced by the healthcare system in Japan (low birth-rate and aging society, issues in medical public finance, issues attendant to advancements of healthcare services, etc.). This book is written by Japanese researchers who are active and at the forefront of management accounting research for healthcare, such as Takami Matsuo, Kazunori Ito, Yutaka Kato, and so on. This book shows the actual use of cost information, cost-management, and management-control methods for healthcare organizations in Japan, and examines how to adopt management accounting methods used by companies in healthcare management, which would be a useful reference for future healthcare management in countries that might face similar issues as Japan in the future.
