Sub-Saharan Africa is at a turning point. The barriers to economic growth seen in the 1980-2000 era are disappearing and new optimism is spreading. However, difficult goals of eliminating poverty, achieving equity and overcoming environmental threats continue. This much-needed and insightful textbook has been written to help us understand this combination of emerging improvements and significant challenges. Opening with an analysis of the main theories relating to development in Sub-Saharan Africa, the book explores all the key issues, including: Human development; Rapid urbanization; Structural and gender dimensions; Sustainable development and environmental issues; and Africa's role in the world economy. The authors use economic
