The prequel to Dangerous Days, Survive Another Day, introduces many of the characters that will be in the series. As always, Higgins does a nice job of introducing them and telling their story without giving too much away. I liked how she had some that made it and some that didn't because in life not everyone lives.

Parenting a child with Asperger's syndrome is never easy, and adding ADHD to the psychological mix makes life even more difficult. In this searingly honest account of bringing up her son, Luke, Jan Greenman challenges common perceptions of a 'life with labels', and recalls her family's 18 year journey to the edge and back. Writing frankly about the medical issues of Luke's early years, including the impact of MMR and Ritalin, Jan recalls how Luke's diagnoses came about, and how life at The Edge, their aptly named family home, changed as a result. She describes the causes and effects of the behaviours associated with Luke's conditions, and the impact they had on each family member, including his younger sister, Abbi. The only predictable thing about Luke is his unpredictability, and Jan also takes a light-hearted look at some of his more unusual habits and obsessions. The book includes tips and advice from Jan, Abbi, and Luke himself, and the final chapters go beyond Luke's early years to look at his life as a teenager - his solo trip to Dubai, and subsequent encounter with customs, his expulsion from school, and the inspirational Headteacher who helped him to turn his life around. Life at the Edge and Beyond is a must for anyone involved in bringing up a child with Asperger's syndrome, ADHD - or both. Parents will take from the family's successes, learn from their mistakes, and realize that, no matter how close to the edge they may feel, they are never alone.

This 7-week plan will rock and roll the finances of every reader and will challenge them to take hold of the life that is true living.

On 22 February 1942 Stefan Zweig, one of the most popular authors of his generation, committed suicide with his wife Lotte. The final,

desperate gesture of this great writer has fascinated ever since. Zweig was an exile, driven from his home in Austria by the Nazis. Fleeing first to London, then New York, trying always to escape both those who demonised him and those who acclaimed him, he eventually took his young bride to Brazil, where they were haunted by the life they'd been forced to abandon and by accounts of the violence in Europe. Blending reality and fiction this novel tells the story of the great writer's final months. Laurent Seksik uncovers the man's hidden passions, his private suffering, and how he and his wife came to end their lives one peaceful February afternoon. "He looked long and deep into her eyes. 'I'll go first,' he said. 'You'll follow me... if that's what you want.'" From the Trade Paperback edition.

Recipient of the Hugo and Nebula Awards for his writing, Barry Longyear flexes his creative and comic chops in *Yesterday's Tomorrow*. In these true stories, Longyear wanders from scenic Maine backdrops to the smoky hum of backwoods Twelve Step meetings, all while dissecting why some recoveries don't come naturally—and why it's okay to let down our guard and laugh. Recovery is one hell of a roller coaster. It twists and plummets, upending our stomachs, while some maniac cackles hysterically in the front car. What's so damn funny? Besides our stomach's contents, what are we missing? Truth is, while we all sit anxiously awaiting that next drop, Barry Longyear is enjoying the wild ride. An award-winning author and proprietor of the *Life Sucks Better Clean* blog, Barry has been on recovery's ride for a while now. He understands the importance of stupid questions and sarcastic responses. He's honest to the point of embarrassment. And he has real problems: with friends, with self-ordained recovery police, and with the god of his childhood. But he also has a strong recovery full of laughter. Despite all its ups and downs, your recovery, too, can be a good one.

Winner, 1992 Association des Ecrivains de Langue Française Prix Européen "I have lived, alone, in a cell, 157,852,800 seconds of solitude and fear. Cause for screaming! They sentence me to live yet another 220,838,400 seconds! To live them or to die from them."--from *The Silent Escape* Victim of Stalinist-era terror, Lena Constante was arrested on trumped-up charges of "espionage" and sentenced to twelve years in Romanian prisons. *The Silent Escape* is the extraordinary account of the first eight years of her incarceration--years of solitary confinement during which she was tortured, starved, and daily humiliated. The only woman to have endured isolation so long in Romanian jails, Constante is also one of the few women political prisoners to have written about her ordeal. Unlike other more political prison diaries, this book draws us into the practical and emotional experiences of everyday prison life. Candidly, eloquently, Constante describes the physical and psychological abuses that were the common lot of communist-state political prisoners. She also recounts the particular humiliations she suffered as a woman, including that of male guards watching her in the bathroom. Constante survived by escaping into her mind--and finally by discovering the "language of the walls," which enabled her to communicate with other female inmates. A powerful story of totalitarianism and human endurance, this work makes an important contribution to the literature of "prison notebooks."

Dear Friends, My name is Mila and I am the hero of the book "The Memory Collector". Do you know what I like most? To play outside, to draw pictures, to sew clothes for my dolls from small fabrics, to paint the pebble stones and to collect snow globes in which I can fly with my dreams. I adore solving mysterious riddles or puzzles and finding out secret things by following the clues like a detective. I also solve Maths problems by thinking deeply such as I am joining the pieces of puzzles. While solving these problems, I feel like I am in such an exciting, mysterious game! Haa haaa, then why should I be afraid of Maths? Oh, fear?! Getting scared?! Of course, we all have different kinds of fears, don't we? But, without wishing to boast I would like to say that I am a courageous kid. Courage doesn't mean not to be scared of anything; it means to push something and not to give up even though you are scared. Therefore, I am inviting you to a kind of "courage game" but watch out! You might be out of breath because of the excitement that we will have through our adventure in this book. Dear Kids, You will have the chance to experience the joy of thinking, and solving problems in the courage game that Mila has invited you. What is the secret of the red fox that Mila saw in the mysterious forest? Who is the memory collector? What is the origin of the anger that Wizard Maraya has? What is the relationship between Panther Kamara and Wizard Maraya? What is the role of Owl Ramon in this adventure? Can the ability of solving problems overcome the magical, supernatural powers? What kind of a perspective has the power of changing evilness into goodness? Here, in the book "The Memory Collector", you will find the answers of lots of the questions like these. You will discover the power of courage, which is driven by mind, to fight against cruelty and to be a good person while having great adventures with Mila in the mysterious cave in the book.
