Create a thinking classroom that helps students move from the factual to the conceptual Concept-Based Inquiry is a framework for inquiry that promotes deep understanding. Brilliantly uniting the personal and the critical, French Lessons is a powerful autobiographical experiment. It tells the story of an American woman escaping into the French language and of a scholar and teacher coming to grips with her history of learning. Kaplan begins with a distinctly American quest for an imaginary France of the intelligence. But soon her infatuation with all things French comes up against the dark, unimagined recesses of French political and cultural life. The daughter of a Jewish lawyer who prosecuted Nazi war criminals at Nuremberg, Kaplan grew up in the 1960s in the Midwest. After her father's death when she was seven, French became her way of "leaving home" and finding herself in another language and culture. In spare, midwestern prose, by turns intimate and wry, Kaplan describes how, as a student in a Swiss boarding school and later in a junior year abroad in Bordeaux, she passionately sought the French "r," attentively honed her accent, and learned the idioms of her French lover. When, as a graduate student, her passion for French culture turned to the elegance and sophistication of its intellectual life, she found herself drawn to the language and style of the novelist Louis-Ferdinand Celine. At the same time she was repulsed by his anti-Semitism. At Yale in the late 70s, during the heyday of deconstruction she chose to transgress its apolitical purity and work on a subject "that made history impossible to ignore:" French fascist intellectuals. Kaplan's discussion of the "de Man affair" -- the discovery that her brilliant and charismatic Yale professor had written compromising articles for the pro-Nazi Belgian press -- and her personal account of the paradoxes of deconstruction are among the most compelling available on this subject. French Lessons belongs in the company of

Sartre's Words and the memoirs of Nathalie Sarraute, Annie Ernaux, and Eva Hoffman. No book so engrossingly conveys both the excitement of learning and the moral dilemmas of the intellectual life.

On the night of 5/6 June 1944, D-Day, a Lockheed Hudson dropped a small group of parachutists into the mountainous Morvan area of central France. Their mission was to operate as an advance reconnaissance party 400 miles behind the German lines and to make contact with the French Resistance. One of the team, later to become its commander, was Ian Wellsted, known by his nom-de-guerre of Gremlin. During the next three months No.1 Troop of the 1st Special Air Service Regiment relayed vital information about enemy troop locations and movements, sabotaged bridges and supply lines, skirmished with German columns and harried the occupying forces as they retreated eastwards in the face of the Allied invasion. Camped deep in the woods of the Montsaughe region, the small force worked alongside the local groups of Maquis, forging strong links of mutual respect and friendship. Ian Wellsted's exciting first-hand account of his operations behind enemy lines is a tale of gallantry and daring, of comradeship and cooperation, full of humour and perceptive insight revealing one of the most significant chapters in the history of the SAS.
