A comprehensive and fascinating look at the history of the Museum of Modern Art ' s Architecture and Design Department under the leadership of the influential curator Arthur Drexler. Arthur Drexler (1921-1987) served as the curator and director of the Architecture and Design Department at the Museum of Modern Art (MOMA) from 1951 until 1986—the longest curatorship in the museum ' s history. Over four decades he conceived and oversaw trailblazing exhibitions that not only reflected but also anticipated major stylistic developments. Although several books cover the roles of MoMA ' s founding director, Alfred Barr, and the department ' s first curator, Philip Johnson, this is the only in-depth study of Drexler, who gave the department its overall shape and direction. During Drexler ' s tenure, MoMA played a pivotal role in examining the work and confirming the reputations of twentieth-century architects, among them Frank Lloyd Wright, Le Corbusier, Richard Neutra, Marcel Breuer, and Ludwig Mies van der Rohe. Exploring unexpected subjects—from the design of automobiles and industrial objects to a reconstruction of a Japanese house and garden—Drexler ' s boundary-pushing shows promoted new ideas about architecture and design as modern arts in contemporary society. The department ' s public and educational programs projected a culture of popular accessibility, offsetting MoMA ' s reputation as an elitist institution. Drawing on rigorous archival research as well as author Thomas S. Hines ' s firsthand experience working with Drexler, Architecture and Design at the Museum of Modern Art analyzes how MoMA became a touchstone for the practice and study of midcentury architecture.

This newly revised deluxe edition of MoMA Highlights celebrates the 90th anniversary of the Museum MoMA Highlights presents a chronological overview of some of the most significant modern and contemporary artworks through superb high-resolution images and short texts by MoMA curators. MoMA Highlights interweaves works from each of the Museum's curatorial departments - painting and sculpture, drawings, prints and illustrated books, photography, architecture and design, film, and media and performance art - to provide a look at one of the premiere art collections in the world. This anniversary book is almost 50% larger than the standard edition.

For the past few years, The Museum of Modern Art has been in the midst of the largest building project in its history. Designed by Yoshio Taniguchi, the new museum will open in midtown Manhattan in November 2004 - 2005 to coincide with MoMA's 75th anniversary. The 630,000-square-foot complex is nearly twice the size of the former facility, with dramatically expanded and redesigned spaces for exhibitions, public programming, educational outreach, and scholarly research. In his initial proposal, Taniguchi explained that his goal was "to create an ideal environment for art and people through the imaginative and disciplined use of light, materials, and space." His stated vision of "a museum that preserves and reinforces MoMA's unique character as the repository of an incomparable collection of modern and contemporary art, as a pioneer of museums of modern art with a unique historical inheritance, and as an urban institution in a midtown Manhattan location" has been resoundingly implemented. The New Museum of Modern Art offers an affordable, concise overview of the new building and its master architect by Glenn D. Lowry, Director of The Museum of Modern Art.

Containing more than one thousand illustrations, many in full color, an extensive overview of the entire collection of The Museum of Modern Art includes works from all six of its departments--Painting and Sculpture, Drawings, Prints and Illustrtaed Books, Architecture and Design, Photography, and Film and Video.

" Art will wake you up. Art will break your heart. There will be glorious days. If you want eternity you must be fearless. " —Heather Rose, The Museum of Modern Love Our hero, Arky Levin, has reached a creative dead end. An unexpected separation from his wife was meant to leave him with the space he needs to work composing film scores, but it has provided none of the peace of mind he needs to create. Guilty and restless, almost by chance he stumbles upon an art exhibit that will change his life. Based on a real piece of performance art that took place in 2010, the installation that the fictional Arky Levin discovers is inexplicably powerful. Visitors to the Museum of Modern Art sit across a table from the performance artist Marina Abramovi , for as short or long a period of time as they choose. Although some go in skeptical, almost all leave moved. And the participants are not the only ones to find themselves changed by this unusual experience: Arky finds himself returning daily to watch others with Abramovi . As the performance unfolds over the course of 75 days, so too does Arky. As he bonds with other people drawn to the exhibit, he slowly starts to understand what might be missing in his life and what he must do. This is a book about art, but it is also about success and failure, illness and happiness. It ' s about what it means to find connection in a modern world. And most of all, it is about love, with its limitations and its transcendence.

A volume to accompany a contemporary exhibition looks at the five "portable murals" created by Mexican artist Diego Rivera in New York City for a major exhibition at the Museum of Modern Art in December 1931.

Volume covers the Collection of Prints and Illustrated Books, not the collection of artists' books.

This new edition of MoMA Highlights presents 375 works from the Museum of Modern Art's unparalleled collection of modern and contemporary art. Featuring 170 new selections--a greater representation of women, artists of color and artists from around the world--this updated volume reflects the inclusionary ethos of the newly expanded museum. MoMA Highlights presents a rich chronological overview of the art of the past 150 years, beginning with a photograph made around 1867 and concluding in 2017, with an Oscar-nominated documentary film. In between, readers will encounter some of the most beloved artworks in the museum's collection--iconic works by Claude Monet, Vincent van Gogh, Frida Kahlo and Andy Warhol, among many others--and discover lesser-known but equally fascinating and significant objects of art, architecture and design from around the world. Each work is represented by a vibrant image and a short, lively and informative text, many of which have been newly written or significantly revised for this edition. Published to accompany the opening of the museum's new and expanded collection galleries in 2019, MoMA Highlights is an indispensable survey of one of the world's premier collections of "the art of our time."

When The Museum of Modern Art first opened its doors on 8 November 1929, it was considered a radical experiment who would have thought that a museum devoted entirely to outrageous modern art would be successful? But succeed it did, weathering both the stock market crash of 1929 just a week later and a storm of controversy that did not dissuade the crowds from going to see what all the fuss was about. Today, MoMA is one of the leading institutions of its kind in the world, with an unrivalled collection of modern and contemporary art. Spanning the museums entire history, this delightful book of cartoons is a wonderfully enjoyable and witty celebration of the Museum and the lively public debate it has often inspired.
