The history of Islam concerns the political, social, economic and cultural developments of Islamic civilization. Most historians accept that Islam originated in Mecca and Medina at the start of the 7th century CE. Muslims regard Islam as a return to the original faith of the prophets, such as Jesus, Solomon, David, Moses, Abraham, Noah and Adam, with the submission (islam) to the will of God.

Century Islamic University p. 243 Index.

In the history of philosophy, few topics are so relevant to today's cultural and political landscape as philosophy in the Islamic world. Yet, this remains one of the lesser-known philosophical traditions. In this Very Short Introduction, Peter Adamson explores the history of philosophy among Muslims, Jews, and Christians living in Islamic lands, from its historical background to thinkers in the twentieth century. Introducing the main philosophical themes of the Islamic world, Adamson integrates ideas from the Islamic and Abrahamic faiths to consider the broad philosophical questions that continue to invite debate: What is the relationship between reason and religious belief? What is the possibility of proving God's existence? What is the nature of knowledge? Drawing on the most recent research in the field, this book challenges the assumption of the cultural decline of philosophy and science in the Islamic world by demonstrating its rich heritage and overlap with other faiths and philosophies.

First published in 1993. Routledge is an imprint of Taylor & Francis, an informa company.

Very occasionally a book appears which provides a perfect bridge between amateurs and professionals. This event is usually less likely to happen in the somewhat arcane field of philosophy and almost beyond concept in the English speaking world when the subject is entwined with the history of Islam. The finer points of philosophical issues are also discussed and presented to enable anyone, whether a scholar or not, Arabic or Westerner, to understand the truths these ancients sought.
