**This practical resource provides guidance for writing professionals to sustainably tackle the organizational writing challenges of any professional environment. Rooted in applied experience, Building a Workplace Writing Center guides readers through the process of developing a writing center, from assessing the needs of an organization and pitching the idea of a writing center, to developing a service model and measuring progress. Chapters explore what a writing center can offer, such as one-on-one writing consultations, tailored group workshops, and standardized writing guidance and resources. Although establishing a writing center requires time and a shift in culture up front, it is a rewarding process that produces measurably improved writing, less frustration with the writing and revision processes, and more confident, independent writers. This guide is an invaluable resource for professionals across industries and academia considering how to establish an embedded, sustainable, and cost-effective workplace writing center. It will be of particular interest to business and human resource managers considering how best to improve writing skills within their organizations.**

**No less than other divisions of the college or university, contemporary writing centers find themselves within a galaxy of competing questions and demands that relate to assessment—questions and demands that usually embed priorities from outside the purview of the writing center itself. Writing centers are used to certain kinds of assessment, both quantitative and qualitative, but are often unprepared to address larger institutional or societal issues. In Building Writing Center Assessments that Matter, Schendel and Macauley start from the kinds of assessment strengths already in place in writing centers, and they build a framework that can help writing centers satisfy local needs and put them in useful dialogue with the larger needs of their institutions, while staying rooted in writing assessment theory. The authors begin from the position that tutoring writers is already an assessment activity, and that good assessment practice (rooted in the work of Adler-Kassner, O'Neill, Moore, and Huot) already reflects the values of writing center theory and practice. They offer examples of assessments developed in local contexts, and of how assessment data built within those contexts can powerfully inform decisions and shape the futures of local writing centers. With additional contributions by Neal Lerner, Brian Huot and Nicole Caswell, and with a strong commitment to honoring on-site local needs, the volume does not advocate a one-size-fits-all answer. But, like the modeling often used in a writing consultation, examples here illustrate how important assessment principles have been applied in a range of local contexts. Ultimately, Building Writing Assessments that Matter describes a theory stance toward assessment for writing centers that honors the uniqueness of the writing center context, and examples of assessment in action that are concrete, manageable, portable, and adaptable.**

**So. Were you glad, deep down? Were you glad to be rid of her? Your perfect sister? Were you secretly glad when she was killed? Following a horrific tragedy that leaves her once perfect family devastated, Katherine Patterson moves to a new city, starts at a new school, and looks forward to a new life of quiet anonymity. But when Katherine meets the gregarious and beautiful Alice Parrie her resolution to live a solitary life becomes difficult. Katherine is unable resist the flattering attention that Alice pays her and is so charmed by Alice's contagious enthusiasm that the two girls soon become firm friends. Alice's joie de vivre is transformative: it helps Katherine forget her painful past and slowly, tentatively, Katherine allows herself to start enjoying life again. But being friends with Alice is complicated - and as Katherine gets to know her better she discovers that although Alice can be charming and generous she can also be selfish and egocentric. Sometimes, even, Alice is cruel. And when Katherine starts to wonder if Alice is really the kind of person she wants as a friend, she discovers something else about Alice - she doesn't like being cast off. Shocking and utterly absorbing, Rebecca James's strong narrative will grip readers from the very first page.
