~~The transatlantic slave trade forced millions of Africans into bondage. Until the early nineteenth century, African slaves came to the Americas in greater numbers than Europeans. In the Shadow of Slavery provides a startling new assessment of the Atlantic slave trade and upends conventional wisdom by shifting attention from the crops slaves were forced to produce to the foods they planted for their own nourishment. Many familiar foods—millet, sorghum, coffee, okra, watermelon, and the "Asian" long bean, for example—are native to Africa, while commercial products such as Coca Cola, Worcestershire Sauce, and Palmolive Soap rely on African plants that were brought to the Americas on slave ships as provisions, medicines, cordage, and bedding. In this exciting, original, and groundbreaking book, Judith A. Carney and Richard Nicholas Rosomoff draw on archaeological records, oral histories, and the accounts of slave ship captains to show how slaves' food plots—“botanical gardens of the dispossessed”—became the incubators of African survival in the Americas and Africanized the foodways of plantation societies.~~

~~This volume describes the traditional vocal and instrumental music of the Lao-speaking people living in Northeast Thailand. Beginning with a description of the cultural and historical contexts of this music, Miller continues with an overview of Northeast Thai music, its instruments, concepts, and certain proto-musical genres. Individual chapters deal separately with the non-technical aspects, including the history, texts, economics, and performance practices of both kaen playing and mawlum singing. Another chapter discusses all technical matters concerning the vocal genres, including the tonal nature of the Lao language, the relationship between melody and linguistic tone, scales, rhythm and meter, form, and tempo. The final two chapters deal specifically with the kaen—a bamboo mouth organ with 6, 14, 16, or 18 tubes, each with a free-reed. This volume is generously illustrated with musical examples transcribed from field recordings made in Northeast Thailand, numerous photographs, and line drawings. Miller concludes with a series of translations of texts from musical examples; an extensive glossary which includes two forms of romanization, the Thai spelling, and a brief description; and, finally, a bibliography, discography, and index.~~

Construct and re-enforce organizational structures that optimize communication and decision-making processes. Acquire and keep essential team members without resorting to pay increases. Train and maintain an effective, market-leading team. Leverage team members to expand and contract a workforce rapidly without business risk. Turn an employee into a profit entrusting real-life stories from the front lines to illustrate their points as well as examples from the business world, the Cannons ' book will provide valuable guidance to managers and leaders.~~

~~Excerpt from Allen's Synonyms and Antonyms The collation and application of these memoranda have taken me many years of intense labor but these memoranda form the basis upon which the present dictionary has been constructed. My aim has been to make the se-ope of the book as broad as possible in order to meet the requirements of my most critical advisers, though this has not been easy. Some have urged that obsolete and rare words be omitted' others have advised that they be retained. Some have thought the contextual notes superfluous; others, even among professional writers, have considered them highly valuable. And so with other features of the book. At some have thought needless, others have thought helpful. As a Result it has seemed advisable to meet all reason able requirements by including those features which serve any widely felt need.
