The laboratory exercises in this manual are coordinated with Inquiry into life, a general biology text that covers the entire field of biology. The text emphasizes how we can apply biological knowledge to our own lives and to our relationships with other organisms. -Pref.

Inquiry into Life was originally developed to reach out to science-shy students. The text now represents one of the cornerstones of introductory biology education and was founded on the belief that teaching science from a human perspective, coupled with human applications, makes the material more relevant to the student. As scientists and educators, the authors are aware that scientific discovery is a dynamic process and the advances in digital publishing are allowing

Basic biological concepts and processes with a human emphasis. From the unique delivery of biology content, to the time tested art program, to the complete integration of the text with technology, Dr. Sylvia Mader has formed a teaching system that will both motivate and enable your students to understand and appreciate the wonders of all areas of biology. Inquiry into Life, 14/e emphasizes the application of all areas of biology to knowledge of human concerns, what the students are able to relate to. This distinctive text was developed to stand apart from all other non-majors texts with a unique approach, unparalleled art, and a straightforward, succinct writing style that has been acclaimed by both users and reviewers. In the 14th edition, the authors have focused on the concept of inquiry and a student ' s inherent desire to learn. To do this, they integrated a tested, traditional learning system with modern digital and pedagogical approaches designed to stimulate and engage today ' s student.
