Summary Ishmael's Apocalypse
Ishmael's Apocalypse is a mystery thriller with intriguing true-to-life terrorism that can happen at any moment in any nation on earth. The story unfolds within an odyssey of world events, during a timeline the

author calls 'his last seven days of grace'. This period begins seven days prior to the Jewish New Year in the Hebrew Calendar year of 5777. The mystery 'who is Ishmael' is archetypal, connecting the main characters with secret twists and uncertain turns, pulsing through the storyline. Its action

This book examines the emotional,

sociology, psychology, social work and social theory. It will also be of interest to practitioners interested in developing their understanding of the relationship between care, emotions, social inclusion and citizenship.
