An international sensation with more than 1 million copies sold in Germany, and rights snapped up in 26 countries, Wetlands is the sexually and anatomically explicit novel that is changing the conversation about female identity and sexuality around the world. Helen Memel is an outspoken, contradictory eighteen-year-old, whose childlike stubbornness is offset by a precocious sexual confidence. She begins her story from a hospital bed, where she's slowly recovering from an operation and lamenting her parents' divorce. To distract and console herself, Helen ruminates on her past sexual and physical adventures in increasingly uncomfortable detail; what ensues is a headlong dash through every crevice and byproduct, physical and psychological, of its narrator's body and mind. (The New York Times) Fantastically sexual, Helen is constantly blurring the line between celebration, provocation, and

dysfunction in her relationship with her body. Punky alienated teenager, young woman reclaiming her body from the tyranny of repressive hygiene (women mustn't smell, excrete, desire), bratty smartass, vulnerable, lonely daughter, shock merchant and pleasure-seeker—Helen is all of these things and more, and her frequent attempts to assert her maturity ultimately prove just how fragile, confused, and young she truly is. In the tradition of *The Sexual Life of Catherine M* and *Melissa P.'s 100 Strokes of the Brush Before Bed*, Charlotte Roche exposes the double bind of female sexuality, delivering a compulsively readable and fearlessly intimate manifesto on sex, hygiene, and the repercussions of family trauma.

A murdered heiress, a missing necklace, and a train full of shifty, unusual, and suspicious characters leaves Daisy and Hazel with a new mystery to solve in this third novel of the Wells & Wong Mystery series. Hazel Wong and Daisy Wells are taking a vacation across Europe on world-famous passenger train, the Orient Express—and it's clear that each of their fellow first-class travelers has something to hide. Even more intriguing: There's rumor of a spy in their midst. Then, during dinner, a bloodcurdling scream comes from inside one of the cabins. When the door is broken down, a passenger is found murdered—her stunning ruby necklace gone. But the killer has vanished, as if into thin air. The Wells & Wong Detective Society is ready to crack the case—but this time, they've got competition.

A top neurologist explains the difficulty of diagnosing brain diseases through such cases as a college quarterback who keeps calling the same play and a salesman who continuously drives around a traffic circle.

A Vintage Shorts "Short Story Month" Selection Driving through the cornfields in rural Nebraska, Burt and Vicky run over a young boy—only to discover that they may not be responsible for his death. Out in the corn, something is watching them, and help is nowhere to be found. From the unrivaled master of horror and the supernatural, Stephen King. "Children of the Corn," first collected in the extraordinary collection *Night Shift* in 1973 and then adapted into a horror film franchise of the same name, is a terrifying and unforgettable classic of the genre. An eBook short.

A monumentally devastating plague leaves only a few survivors who, while experiencing dreams of a battle between good and evil, move toward an actual confrontation as they migrate to Boulder, Colorado.

But when an email falls into the wrong hands, his secret is at risk of being thrust into the spotlight. Now change-averse Simon has to find a way to step out of his comfort zone before he's pushed out—without alienating his friends, compromising himself, or fumbling a shot at happiness with the most confusing, adorable guy he's never met. Incredibly funny and poignant, this twenty-first-century coming-of-age, coming out story—wrapped in a geek romancel—is a knockout of a debut novel by Becky Albertalli.
