This college-level media management textbook reflects the changes in the media industries that have occurred in the past decade. Today's managers must address new issues that their predecessors never faced, from the threats of professional piracy and casual copying of digital media products, to global networks, on-demand consumption, and changing business models. The book explains the new vocabulary of media moguls, such as bandwidth, digital rights management, customer relations management, distributed work groups, centralized broadcast operations, automated playlists, server-based playout, repurposing, mobisodes, TV-to-DVD, and content management. The chapters logically unfold the ways that managers are evolving their practices to make content, market it, and deliver it to consumers in a competitive, global digital marketplace. In addition to media companies, this book covers management processes that extend to all content-producing organizations, because today's students are as likely to produce high-quality video and Web video for ABC Computer Sales as they are for the ABC Entertainment Television Network.

The 4th FTRA International Conference on Computer Science and its Applications (CSA-12) will be held in Jeju, Korea on November 22-25, 2012. CSA-12 will be the most comprehensive conference focused on the various aspects of advances in computer science and its applications. CSA-12 will provide an opportunity for academic and industry professionals to discuss the latest issues and progress in the area of CSA. In addition, the conference will publish high quality papers which are closely related to the various theories and practical applications in CSA. Furthermore, we expect that the conference and its publications will be a trigger for further related research and technology improvements in this important subject. CSA-12 is the next event in a series of highly successful International Conference on Computer Science and its Applications, previously held as CSA-11 (3rd Edition: Jeju, December, 2011), CSA-09 (2nd Edition: Jeju, December, 2009), and CSA-08 (1st Edition: Australia, October, 2008).

This book is bible for beginning radio professionals: the complete, definitive guide to the internal workings of radio stations and the radio industry. Not only will you begin understand how each job at a radio station is best performed, you will learn how it meshes with those of the rest of the radio station staff. If you are uncertain of your career goals, this book provides a solid foundation in who does what, when, and why. The Radio Station details all departments within a radio station. Topics explained include satellite radio, Web radio, AM stereo, cable and podcasting. Also, mergers and consolidation, future prospects, new digital technologies. This edition is loaded with new illustrations, feature boxes and quotes from industry pros, bringing it all together for the reader. Going strong after 20 years The Radio Station is now in its eighth edition and long considered the standard work on this audio medium. It remains a concise and candid guide to the internal workings of radio stations and the radio industry, explaining the functions performed successfully within every well-run station.

When the first edition of Masterful Coaching was published, it quickly became the standard resource for anyone who was a coach, considering becoming a coach, or curious about being an extraordinary coach. In this completely revised third edition of his groundbreaking book, Hargrove presents his profound insights into the journey to of becoming a masterful coach along with guiding ideas, tools, and methods.

THE HARD DRIVE BIBLE, EIGHTH EDITION is the definitive reference book for anyone who deals with personal computer data storage devices of any kind. This comprehensive work covers installations, drive parameters, & set up information for thousands of Hard Disk, Optical, DAT Tape, & CD-ROM Drives. A concise history of data storage devices is followed by the most expansive compilation of technical data offered to the public today. Specifications, drawings, charts & photos cover jumper settings, cabling, partitioning & formatting of disk drives. SCSI commands & protocols are addressed, in addition to chapters revealing the intricacies of different interface standards & common troubleshooting procedures. THE HARD DRIVE BIBLE contains the answers to anyone's questions concerning the purchase, installation & use of modern digital data storage devices. The difficulties caused by compatibility mismatches are addressed & solutions are offered. Also featured are controller card information & performance ratings, as well as valuable tips on increasing drive performance & reliability through software. THE HARD DRIVE BIBLE is published by Corporate Systems Center, one of the leaders in the digital storage device field. A CD-ROM included with the book carries CSC's drive performance test software & formatting tools, as well as thousands of drive parameters, specifications, & technical drawings. To order contact: Corporate Systems Center, 1294 Hammerwood Avenue, Sunnyvale, CA 94089; 408-743-8787.

"Meat Planet explores the quest to grow meat in laboratories--a substance sometimes called "cultured meat"--And asks what it means to imagine that this is the future of food. This book takes the reader on a tour of the laboratories, kitchens, public debates, and media events that may launch this novel food technology. While pundits and entrepreneurs promote cultured meat as a solution to the ethical and environmental problems of industrial meat, Meat Planet meditates on the philosophical, historical and anthropological meanings of future flesh"--Provided by publisher.
