In 1922, at the age of two, Petey's distraught parents commit him to the state's insane asylum, unaware that their son is actually suffering from severe cerebral palsy. Bound by his wheelchair and struggling to communicate with the people around him, Petey finds a way to remain kind and generous despite the horrific conditions in his new "home." Through the decades, he befriends several caretakers but is heartbroken when each eventually leaves him. Determined not to be hurt again, he vows to no longer let hope of lifelong friends and family torment him. That changes after he is moved into a nursing home and meets a young teen named Trevor Ladd; he sees something in the boy and decides to risk friendship one last time. Trevor, new to town

and a bit of a loner, is at first weary of the old man in the wheelchair. But after hearing more of his story, Trevor learns that there is much more to Petey than meets the eye. Petey is a touching story of friendship, discovery, and the uplifting power of the human spirit.

Can murder and mercy go hand in hand? In *The Grand Hotel*, a homeless woman charms a businessman into paying for dinner and a room. When his dead body is discovered the following morning she becomes the

prime suspect. When a second person is killed in similar circumstances, Sybilla, having left her comfortable middle-class upbringing for the anonymity of the streets, becomes the most wanted person in Sweden . . . Missing is a gripping, multi-faceted thriller; more than a murder-hunt, it is also something more profound : an individual's journey to self-awareness and hope.

It was the biggest political scandal for a generation. The Speaker of the House and 5 members of the Cabinet resigned. The Legg enquiry ordered MPs to pay back over £ 1 million of wrongly claimed expenses. 381 MPs will be forced to pay back an average £ 3,000.

3 MPs and 1 Lord face criminal charges. No Expenses Spared is the fascinating account of the journalistic scoop that changed the face of British politics. It tells the story of one whistleblower and a small team of dedicated journalists who worked in secret to pore through more than a million expenses documents, braved the threat of legal action and political pressure to reveal the truth.

Deitel, Visual Basic 2008 How to Program, Fourth Edition introduces all facets of the Visual Basic 2008 language hands-on, through hundreds of working programs. This book has been thoroughly updated to reflect the major innovations Microsoft has incorporated in Visual Basic 2008 and .NET 3.5; all discussions and sample code have been carefully audited against the newest Visual Basic language specification. The many new platform features covered in depth in this edition include: LINQ data queries, Windows Presentation Foundation (WPF), ASP.NET Ajax and the Microsoft Ajax Library, Silverlight-based rich Internet application development, and creating Web services with Windows Communication Foundation

(WCF). New language features introduced in this edition: object anonymous types, object initializers, implicitly typed local variables and arrays, delegates, lambda expressions, and extension methods. Students begin by getting comfortable with the free Visual Basic Express 2008 IDE and basic VB syntax included on the CD. Next, they build their skills one step at a time, mastering control structures, classes, objects, methods, variables, arrays, and the core techniques of object-oriented programming. With this strong foundation in place, the Deitels introduce more sophisticated techniques, including inheritance, polymorphism, exception handling, strings, GUI's, data structures, generics, and collections. Throughout, the authors show

developers how to make the most of Microsoft's Visual Studio tools. A series of appendices provide essential programming reference material on topics ranging from number systems to the Visual Studio Debugger, UML 2 to Unicode and ASCII.
