This is a Pageburst digital textbook. Part of the popular LPN Threads series, Introduction to Maternity & Pediatric Nursing provides a solid foundation in obstetrics and pediatric nursing. An easy-to-follow organization by developmental stages, discussion of disorders by body system from simple-to-complex and health-to-illness, and a focus on family health make it a complete guide to caring for maternity and pediatric patients. Written in a clear, concise style by Gloria Leifer, MA, RN, this edition reflects the current NCLEX® test plan with additional material on safety, health promotion, nutrition, and related psychosocial care. Cultural Considerations boxes and a Cultural Assessment Data Collection Tool help in developing individualized plans of care. Updated health promotion content includes Health Promotion boxes focusing on preventive strategies for achieving prenatal wellness, health during pregnancy, postnatal health, and pediatric illness prevention and wellness -- including the complete immunization schedules for all ages. Nursing Tips provide information applying to the clinical setting. Objectives are listed in each chapter opener. Key terms include phonetic pronunciations and text page references at the beginning of each chapter. Nursing Care Plans with critical thinking questions help you understand how a care plan is developed, how to evaluate care of a patient, and how to apply critical thinking skills. A companion Evolve website includes animations, videos, answers to review questions and answer guidelines for critical thinking questions, an English/Spanish audio glossary, critical thinking case studies, and additional review questions for the NCLEX examination. Get Ready for the NCLEX® Examination! sections at the end of each chapter help you prepare for classroom tests and the NCLEX examination. Increased focus on safety helps you prepare for safe nursing practice, with: Safety Alert! boxes based on The Joint Commission's 2009/2010 National Patient Safety Goals Medication Safety Alert! boxes highlighting serious and potentially fatal medication errors in infants and children New information on determining pediatric dosages and a discussion of the Pedislide system New skills include step-by-step instructions for: Bathing the Newborn Assessing the Length and Height of Infants and Children Alert! Removal of a Peripheral Intravenous Catheter Using the Peak Flowmeter Using a Metered-Dose Inhaler Updated, vibrant full-color design highlights key information and enhances your understanding of important concepts. Updated nutrition content compares commercially available infant formulas and discusses organic, natural, and dietetic foods. Nutrition Considerations boxes cover newborn care, nutritional issues during infancy, and the crisis in childhood obesity. Memory Jigger boxes help you remember important material with mnemonics, tips, and tricks. An updated glossary is available in the textbook, as well as on the companion Evolve website.

Leifer's Study Guide for Introduction to Maternity and Pediatric Nursing is a rich resource that enhances your comprehension and application of material from every chapter of the textbook. With a variety of learning activities, critical thinking exercises, case studies, and review questions, this study guide reinforces your mastery of the essential maternity and pediatric nursing concepts and skills you need to pass the NCLEX-PN® Examination and succeed in your nursing career. NCLEX exam-style multiple-choice review questions at the end of each chapter test basic chapter knowledge as well as ask for appropriate nursing actions, what the nurse should expect in terms of medical care of the patient, and what complications the patient is at risk of developing. Case Studies and Applying Knowledge activities provide additional opportunities to apply learned information to clinical care. Thinking Critically activities require you to apply what you've learned in the textbook to new situations and draw conclusions based on that knowledge. Learning activities include matching, labeling, and completion exercises to help you learn basic concepts of maternity and pediatric nursing. Crossword puzzles in selected chapters are a nice way to change up the format when testing comprehension of terms and concepts. Answer key is located on the student's Evolve website.

Reinforce your understanding of maternity and pediatric nursing with this practical study guide! With chapters corresponding to Leifer's Introduction to Maternity and Pediatric Nursing, 9th Edition, this workbook provides a variety of exercises and activities to help you review concepts and learn to think critically. Case studies offer opportunities to apply your knowledge to patient care. New to this edition are Next-Generation NCLEX® (NGN) exam-style questions to help you prepare for success on your licensure examination and in nursing practice: maternity, perinatal, newborn, pediatric, child nursing, women's health NEW! Next-Generation NCLEX® exam-style questions for case studies help students develop skills in clinical judgment and prepare for the new licensure examination. NEW! Updated exercises correspond with the textbook's new content on methods and treatment in the care of women, families, newborns, and children.

Get a solid foundation in maternity and pediatric nursing! Written in a clear, concise, friendly style, Introduction to Maternity and Pediatric Nursing, 8th Edition is the complete guide to caring for maternity and pediatric patients. This best-selling text is organized by developmental stages, discussions of pediatric disorders by body system from simple-to-complex and health-to-illness, and includes a focus on family health. This edition also contains newly updated NCLEX® style review questions, new case studies, new content on Zika virus, QSEN and safety, and expanded phases of pregnancy. Evidence-based maternal-child content prepares you for the LVN/LPN to achieve higher levels of learning, a goal expressed by the IOM Committee on the Future of Nursing. Over 42 detailed, updated nursing skills introduce you to skills unique to maternity and pediatric care. Over 25 nursing care plans feature seven different formats/themes/styles, including unfolding case studies. The beginning concepts of critical thinking introduces you to this idea as a basis for clinical nursing care. Updated content on the influence of microbiomes on non-invasive pregnancy and newborn nursing care addresses its impact on the adult health of the newborn. Step-by-step application of the nursing process covers the hospital, home, community and use in improving global health. Expanded cultural practices as they relate to pregnancy, delivery and pediatric care in the community. Coverage of the use of expanding new technologies and computerized medication administration reinforce the nursing process and strengthen problem-solving skills as applied to maternity nursing. NEW! Discussion of new health threats include in-depth coverage of the Zika virus and Influenza NEW! Updated guidelines for hypertension and immunizations for infants and children. NEW! Updated QSEN goals and nursing responsibilities reflect the most recent changes. NEW! Expanded phases of pregnancy includes preconception, prenatal, intrapartum, postpartum and interconception care and nursing responsibilities. NEW! Updated nursing responsibilities related to global health reflect the "Baby Friendly Hospital" WHO initiative and interprofessional nursing communication related to nursing "hand-off care" and shift change reports. NEW! Updated NCLEX® exam-style review questions have been revised with alternate item formats at the end of each chapter. NEW! Expanded nursing and safety tips throughout include evidence-based online resources which provide pertinent information applicable in the clinical setting that reinforces what you have just learned while building on previously learned information. NEW! Expanded coverage of bioterrorism nursing reflect trauma related to pregnancy and pediatric care.

Keyed chapter-by-chapter to the textbook, this best-selling Study Guide is designed to assist students in understanding and applying the content presented in Introduction to Maternity & Pediatric Nursing, 4th edition. Together with the textbook, this study guide promotes active learning and the application of essential maternity & pediatric content to better prepare students for practice in the clinical setting. - Includes matching, labelling, and completion learning activities, crossword puzzles, critical thinking exercises, case studies, applying knowledge activities, and multiple-choice review questions. - Text page references are provided. - Answers for the activities and exercises are provided in the Instructor's Manual.

Gain a solid foundation in Canadian maternity and pediatric nursing! Written in a clear, concise, friendly style, Leifer's Intro to Maternity & Pediatric Nursing in Canada, is the first Canadian edition of the best-selling Leifer textbook. Fully revised by author, Lisa Keenan-Lindsay, RN, MN, PNC(C), it includes Canadian statistics, terminology, references, guidelines, resources, Canadian nursing best practices, assessments, and more! It's organized by developmental stages and includes discussions of pediatric disorders by body system from simple-to-complex and health-to-illness. With a rich focus on family health, this text contains exam-style review questions, case studies, and numerous other pedagogical features to give you the tools you need to successfully care for patients within the Canadian social and institutional context. Logical organization of content by simple-to-complex and health-to-illness, makes it easy for you to locate and access information. Health Promotion Considerations boxes focus on preventive strategies for achieving prenatal wellness, health during pregnancy, postpartum health, newborn health, and pediatric illness prevention and wellness—including Canadian immunization schedules for all ages. Unfolding Case Studies with open-ended critical thinking questions assess application of content to practice as you follow one family through conception and the birth process. Nursing Care Plans provide expected outcomes, interventions, and rationales for nursing interventions. Comprehensive coverage of over 35 skills, outlined in step-by-step format cover a wide range of maternal and pediatric nursing interventions. Focus on health promotion and illness prevention, covers women's health issues, and growth and development of child and parent. Cultural considerations applied as they relate to maternal/infant, and pediatric care in detailed tables. Safety Alerts emphasize protecting patients, family, health care providers, and the public from accidents, medication errors, and the spread of disease. Nursing Tips throughout text provide you with pertinent information applicable in the clinical setting. NEW! Fully revised content for a Canadian audience includes statistics, terminology, references and resources. 2019 Canada's Food Guide, guidelines from the Society of Obstetricians and Gynaecologists of Canada (SOGC), the Canadian Paediatric Society (CPS), and the Public Health Agency of Canada. Canadian nursing best practice guidelines, assessments, and more! NEW! Strong focus on Health Promotion includes application of the social determinants of health, greater emphasis on community nursing, primary health care, and family-centred care approach. NEW! High-Risk Newborn chapter combines preterm/post-term newborn with the child born with a congenital condition. NEW! Chapter covers caring for the child with a chronic illness or in palliative care. UNIQUE! Baby-Friendly Initiatives incorporated throughout the text. UNIQUE! Canadian cultural considerations include content related to Indigenous Peoples threaded throughout all applicable chapters. NEW! Updated lab information based on Canadian guidelines and the five P's of labour. NEW! Complete inclusion of Canadian medications, dosages, and metric measurements. NEW! Patricia Castaldi, RN, MSN1999. 432 pp., 100 illus. Includes Chapter Openers with concise Chapter Outlines that guide students through the content and Learning Objectives to help them focus their studying. Includes striking new photographs that bring to life the many current themes and new and improved products and equipment in maternity nursing Includes Clinical Pathways where appropriate to reflect collaborative care. Expands content in the Womens Health Issues chapter with more information on major gynecological concerns, sexually transmitted diseases, and violence/rape trauma. Incorporates Fast Focus boxes throughout the text, providing contentpieces that highlight important information. Contains Critical Thinking Activities which encourage the student to assimilate and synthesize information, then to apply it using critical thinking skills. Includes many new tables as well as reorganized and streamlined content to make accessing important information easier, more efficient, and user friendly. Adds a second color to highlight and accentuate many illustrations and important information. Contains updated bibliographies, including the new Healthy People 2010 objectives.

From prenatal through postpartum care, Gloria Leifer's Maternity Nursing: An Introductory Text provides an essential foundation for promoting the health and wellness of mothers and newborns. This edition includes the latest advances and practice standards in maternity nursing care, highlighting Healthy People 2020 and the 2011 Joint Commission National Patient Safety Goals. Part of the popular LPN Threads series, this text addresses the knowledge, skills, and scope of practice appropriate for LPN/LVN and LPN/LVN-to-ADN ladder programs. Chronological organization of content follows a sequence from family issues, fetal development, pregnancy, labor, birth, and care of the newborn, to postpartum issues with special social, familial, and cultural considerations. Organization of concepts in each chapter by simple to complex and from health to illness makes it easier to locate and understand the material. Complete, concise coverage includes a table of physiologic and psychosocial changes throughout the pregnancy, unique content on CPR for the pregnant patient and infectious diseases acquired during pregnancy, a pictorial story of a vaginal birth, cultural considerations of pregnancy and maternal care, and nursing responses to loss, death, and grief. UNIQUE! A FREE Study Guide in the back of the book reinforces understanding with multiple-choice, fill-in-the-blank, scenario-based clinical situation questions, and online activities. Nursing Care Plans with critical thinking questions help in understanding how a care plan is developed, how to evaluate care of a patient, and how to apply your knowledge to clinical scenarios. Health Promotion boxes and content focus on family-centered care, health promotion, illness prevention, and women's health issues. Clinical Pathways use an interdisciplinary, collaborative-care approach in tracking interventions along a timeline from assessment to discharge and follow up. Online resources for further research and study are included at the end of each chapter. UNIQUE! LPN Threads make learning easier, featuring a 10th-grade reading level, key terms with phonetic pronunciations and text page references, chapter-objectives, special features boxes, and full-color art, photographs, and design.
