NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • From one of America’s iconic writers, a stunning book of electric honesty and passion that explores an intensely personal yet universal experience: a portrait of a marriage—and a life, in good times and bad—that will speak to anyone who has ever loved a husband or wife or child. Several days before Christmas 2003, John Gregory Dunne and Joan Didion saw their only daughter, Quintana, fall ill with what seemed at first flu, then pneumonia, then complete septic shock. She was put into an induced coma and placed on life support. Days later—the night before New Year’s Eve—the Dunnes were just sitting down to dinner after visiting the hospital when John Gregory Dunne suffered a massive and fatal coronary. In a second, this close, symbiotic partnership of forty years was over. Four weeks later, their daughter pulled through. Two months after that, arriving at LAX, she collapsed and underwent six hours of brain surgery at UCLA Medical Center to relieve a massive hematoma. This powerful book is Didion’s attempt to make sense of the “weeks and then months that cut loose any fixed idea I ever had about death, about illness ... about marriage and children and memory ... about the shallowness of sanity, about life itself.

She’s been compared to a beacon shining through the fog. Her thorough research, meticulous analyses, and extraordinarily accurate forecasts have won her the respect and admiration of colleagues up and down the Street. A protégée of the master technical analyst Alan Shaw, she is currently Senior Technical Analyst, Vice President for Research at Salomon Smith Barney. But what some insiders remember most about Louise Yamada is that in 1994 she was among the very first to predict the greatest bull market of the twentieth century. In Market Magic, Louise Yamada shares her formidable skills to look beyond the daily noise of trading and help guide your investments through the perils and uncertainties of the next ten years. At a time when classical forecasting techniques seem to be failing us and even the professionals are at a loss as to which way the markets will go, Yamada marshals her experience and talent to offer on-target analyses of today’s macro forces and specific trend forecasts for the next decade. Reading this book, you will understand why her weekly reports on various markets are so eagerly awaited by investors everywhere. Yamada describes what she saw in 1994 that led her to argue for an extended bull market. In addition, she describes her “two-tier market thesis” and explains why U.S. equities with global exposure have outperformed domestically focused stocks and why this trend should continue into the future. Yamada reveals how macro changes in U.S. demographics have subtly altered the business and investment landscapes, and how these demographic shifts are impacting the stock market in ways that have been largely unnoticed. Her case for an extension of this bull market into the next century is must reading for all serious (and nervous) investors. Firm in her belief that new technology will continue to drive the economy, Yamada identifies the industries and business sectors she believes will thrive under its expanding influence. Market Magic offers a fresh perspective on the new and emerging realities. Forging links between the forces that will be at work in the future, Louise Yamada reveals a thought-provoking scenario for the market’s next ten years, and details how investors can track its course through technical analysis. Market Magic is an enlightening analysis of the big picture from one of the best minds in the investment community. “Few on Wall Street can match Louise Yamada for analytical ability as well as insight on the big issues affecting investors. We are fortunate she is willing to share the results of her thoughts and research with us.” -Mark Haines, CNBC. “Louise Yamada has a special talent for anticipating future financial trends. Market Magic is a must read for investors as we prepare for the exciting decade ahead.” -David Cork, F.C.S.I. author of The Pig and the Python: How to Prosper from the Aging Baby Boom. “Market Magic demystifies the voodoo of technical analysis and relates technical indicators to the real world of stocks and bonds and demographic and economic trends worldwide.” -Oscar S. Schafer, General Partner Cumberland Associates; Member, Barron’s Roundtable.

Barack Obama found himself in the fi ght of his life when he decided to throw his hat into the ring of the ‘2008’ presidential race. His historical bid to become the next president of the United States of America brought intrigue, excitement, and controversy to the campaign trail in ways the political world will never quite be able to capture in words. I (however) gave it the old college try. As the first seriously considered African American contender, the campaign trail’s rhetoric heated up and became fraught with racism, nay-sayers, and vehement critics. By turning three simple words “Yes We Can” into his mantra, Senator Obama over came those devastating obstacles to become the Distinguishable Gentleman. In this blow by blow narrative account of the most historical presidential race of this country’s history, this (easy read depiction) captures the candid political facts, and personal narratives of the candidates who participated in the highly contentious ‘2008’ election. The Distinguishable Gentleman and the Presidential Race of ‘08’ will not only educate, but enlighten, as well as motivate. Americans will be able to refer to this valuable resource many years from now when nostalgia lures them to relive the “dream” once more. “It’s been a long time coming, but tonight, because of what we did on this day, in this election, at this defi ning moment, change has come to America.” President Obama November 4, 2008

Magic is everywhere, from the big spectacle celebrity of David Copperfield and Siegfried and Roy to the quirky Penn and Teller to the spooky David Blaine and Criss Angel to the endless material on YouTube. But until now, learning it has never been easy—that’s all about to change with Magic, a book that does for close-up magic what How to Grill does for barbecue. Written by charismatic young magician Joshua Jay, Magic combines expertise, photographs, and step-by-step directions showing how to perform 100 tricks. Joshua Jay took home the top prize at the World Magic Seminar (the Olympics of magic) when he was just 16 years old. Now he continues to perform magic, write about magic, eat, sleep, and breathe magic. Here, he brings all his passion and knowledge to teaching magic. Each trick is broken down into the Effect, the Secret, the Set-up, and, most important, the Performance, with lessons on what to say, how to direct the audience’s attention, where to keep your hands, and so on. (In other words, how to be smart about the things your audience is surprisingly clueless about.) Here are the Ten Greatest Card Tricks; tricks to dazzle a dinner date; tricks to perform for the boss (poke a hole through his shirt, then magically mend it); tricks especially for kids; and even tricks for an audience in another state—with “Australian Self-Help,” you can find a participant’s chosen card over the phone. It’s the Aha! book for a subject whose time has come.
