The charger/headset jack for the F3 Motofone (and variants) was not a standard 2.5 mm or 3.5 mm headset port. It was a DC connector that can support mono sound quality. This is not well documented at Motorola, and internal documentation indicates the jack is a standard 2.5 mm TRS connector jack. The jack shown on the Motorola site clearly has a pin in the center of the jack, prohibiting use of a standard 2.5 mm plug.

Dewdney's careful recording gives a baseline for preserving these important messages some of which are from deep human past. These paintings, some of which are very artistic, are in danger of disappearing due to human activity and natural causes which makes the preservation so important. Dewdney himself made major contributions to the field of art therapy and approached the rock paintings with a respect which was not always common in his day...reader's review.
