Historian Neil Oliver has criticised the government's "insulting" coronavirus Christmas rules, saying they are "taking agency away from people". Speaking with talkRADIO's Mike Graham, the broadcaster said: "We are not a nation of babies, in the most part it's a nation of people who are already in the business of taking care of their families [...]"

Neil Oliver (born 21 February 1967) is a Scottish television presenter, free-lance archaeologist, conservationist and author. He is best known as a presenter of several BBC historical and archaeological documentary series, including A History of Scotland, Vikings and Coast.

"1453. John Grant travels from his humble home in Scotland to the glittering city of Constantinople. His journey will bring him together with a formidable Moor, a fearsome female warrior, a beautiful girl and a crippled Byzantine prince. Drawn by invisible threads, the lives of these people converge at the great Siege of Constantinople. With the city on the brink of disaster, each must make a choice between head and heart, duty and destiny"--Publishers description.

The Vikings famously took no prisoners, relished cruel retribution, and prided themselves on their blood-thirsty skills as warriors. But their prowess in battle is only a small part of their story, which stretches from their Scandinavian origins to America in the west and as far as Baghdad in the east. As the Vikings did not write their history,

we have to discover it for ourselves, and that discovery, as Neil Oliver reveals, tells an extraordinary story of a people who, from the brink of destruction, reached a quarter of the way around the globe and built an empire that lasted nearly 200 years. Drawing on the latest discoveries that have only recently come to light, Neil Oliver goes on the trail of the real Vikings. Where did they emerge from? How did they really live? And just what drove them to embark on such extraordinary voyages of discovery over 1000 years ago? VIKINGS will explore many of these questions for the first time in an epic story of one of the world's great empires of conquest.

The dramatic story of Scotland - by charismatic television historian, Neil Oliver. Scotland is one of the oldest countries in the world with a vivid and diverse past. Yet the stories and figures that dominate Scottish history - tales of failure, submission, thwarted ambition and tragedy - often badly serve this great nation, overshadowing the rich tapestry of her intricate past. Historian Neil Oliver presents a compelling new portrait of Scottish history, peppered with action, high drama and centuries of turbulence that have helped to shape modern Scotland. Along the way, he takes in iconic landmarks and historic architecture; debunks myths surrounding Scotland's famous sons; recalls

forgotten battles; charts the growth of patriotism; and explores recent political developments, capturing Scotland's sense of identity and celebrating her place in the wider world.

THE PERFECT READ FOR TROUBLED TIMES From the bestselling author of *The Story of the British Isles in 100 Places* comes this inspiring and beautifully written meditation on the wisdom inherited from our ancestors. For all we have gained in the modern world, simple peace of mind is hard to find. In a time that is increasingly fraught with complexity and conflict, we are told that our wellbeing relies on remaining as present as possible. But what if the key to being present lies in the past? In *Wisdom of the Ancients*, Neil Oliver takes us back in time, to grab hold of the ideas buried in forgotten cultures and early civilizations. From Laetoli footprints in Tanzania to Keralan rituals, stone circles and cave paintings, Oliver takes us on a global journey through antiquity. A master storyteller, drawing on immense knowledge of our ancient past, he distils this wisdom into twelve messages that have endured the test of time, and invites us to consider how these might apply to our lives today. The result is powerful and inspirational, moving and profound.

'Oliver is an evocative storyteller, vividly bringing his tales to life' BBC History From

think more about the places you pass and less about your route, because every British journey is through rich history." (Edward Stourton) From much-loved historian Neil Oliver, comes this beautifully written, kaleidoscopic history of a place with a story like no other. The British Isles, this archipelago of islands, is to Neil Oliver the best place in the world. From north to south, east to west it cradles astonishing beauty. The human story here is a million years old, and counting. But the tolerant, easygoing peace we enjoy has been hard won. We have made and known the best and worst of times. We have been hero and villain and all else in between, and we have learned some lessons. The Story of the British Isles in 100 Places is Neil's very personal account of what makes these islands so special, told through the places that have witnessed the unfolding of our history. Beginning with footprints made in the sand by humankind's earliest ancestors, he takes us via Romans and Vikings, the flowering of religion, through civil war, industrial revolution and two world wars. From windswept headlands to battlefields, ancient trees to magnificent cathedrals, each of his destinations is a place where, somehow, the spirit of the past seems to linger.

Stories of heroism, exploration, and sacrifice -- including Apollo XIII and Scott of the Antarctic -- that inspire boys to be

Read Online Neil Oliver

courageous, selfless, and open to adventure Tales of brave and selfless deeds used to be part of every boy's education. We grew up sharing stories with our fathers, uncles, and grandfathers of how other men had lived their lives, met their challenges, reached their goals, and faced their deaths. Becoming a man was about comradeship and standing by your friends whatever the circumstances. And it meant that sometimes it was more important to die a hero than live a coward's life. Through Neil Oliver's vivid, stirring accounts we can rediscover the stories that inspire men to perform acts greater than themselves. These are the epics that we should all know by heart; the tales of courage, endurance, and sacrifice that made men out of boys. Amazing Tales for Making Men Out of Boys is packed with classic stories of courage and heroism from around the world and includes four stories especially for the American edition: Omaha Beach, June 6th 1944; The Alamo; The Civil War Battle of Shilo; and The Revolutionary War Sea Battle of John Paul Jones and the Bon Homme Richard.

Please note: This is a companion version & not the original book. Sample Book Insights: #1 The first people are made of the stone, and the rock itself has been shaping and testing Scotland for billions of years. It is not enough to start with the people who used the stone; the correct place to begin is with the rock itself. #2 The Earth was shaped

Read Online Neil Oliver

after the moon-making collision, and as it cooled, concentric layers formed and a thin crust hardened. The material beneath remained liquid and as the heat circulated, rising to the surface and then sinking back down towards the interior, the currents and flows kept the outer shell in perpetual motion. #3 The oldest rocks beneath the feet of Scots are the Lewisian gneisses, which form the basement bedrock of Lewis, the rest of the Western Isles, the Inner Hebrides, and some parts of the seaboard of the north-west. They were formed deep beneath earth's crust three billion or more years ago. #4 The emergence of a nation, Scotland, was never inevitable. The rocks of Scotland were never destined to be together, as they were once part of several different landmasses. They came together by chance, a whim of pressure and time.

Takes us back in time, to grab hold of the ideas buried in forgotten cultures and early civilizations. From Laetoli footprints in Tanzania to Keralan rituals, stone circles and cave paintings, Oliver takes us on a global journey through antiquity.

Accompanying the BBC TV series of the same name, Neil Oliver's popular account of Britain's prehistoric and Roman past strikes a personal note, interweaving Oliver's own voyage of discovery with a chronological survey. Featuring snippets of interviews with
