Night of the Moon is a traditional literature book. This book is a book most Muslims use to teach their kids about the Ramadan holiday. The book is overall a great book to introduce the Ramadan holiday to kids. The book also give kids the ability to ask questions and also compare the Muslim holiday to the holiday they celebrate.

The Night of the Moon: A Muslim Holiday Story by Hena Khan

Without the Sun, our Moon would be completely dark. What you may have heard referred to as "moonlight" is actually just sunlight reflecting off of the Moon's surface. The Sun's light comes from one direction, and it always illuminates, or lights up, one half of the Moon - the side of the Moon that is facing the Sun.

If we define a "day" as the amount of time it takes the sun to return to the same point on the moon's horizon after the moon completes a new revolution around Earth, then every lunar day lasts for 29.5 Earth days. This means that – on every orbit – the moon gets a little over two weeks' worth of daylight followed by an equal amount of nighttime.

Rhiow seems a perfectly ordinary New York City cat. Or so her humans think--but she is much more than she appears. With her partners Saash and Urruah, she collaborates with human wizards, protecting the earth from dark forces and helping to maintain the network of magical gateways between different realities.

Explains the phases of the moon, how it shines at night, and other facts about earth's closest neighbor in space.

Meet Moon and a little girl, Lucy, in this illustrated storybook that teaches young children about the importance of the moon and how valuable each of us really is. Space can be lonely, so Moon likes to watch people down on Earth. There's just one problem: when Sun is out, everybody on Earth is happy to see him, but when Moon is out, everyone goes to sleep. This makes Moon upset. What Moon doesn't know is that little Lucy loves to look up at Moon, and one clear night she sees that Moon has disappeared. Can Lucy find Moon and will Moon learn just how much everybody actually loves her? With colorful illustrations and an engaging storyline, this ebook will inspire and captivate young readers with its timely and ultimately uplifting message about how valuable everyone is and how much we mean to the people around us. It also teaches children about why the Moon is so important to our lives.

A perfect bedtime story and addition to every child's bookshelf.

In the winter of 1840, the night of the full moon is approaching. Nothing will stop Libby Mitchell from visiting her best friend, Fawn, during a special ceremony at the nearby wigwam camp. But Libby's adventure takes an unexpected turn when soldiers suddenly rush in. They order everyone at the camp, including Libby, to move off the land—immediately! With each passing day, the displaced people must move farther away from home. Will Libby ever see her family again? History Stepping Stones now feature updated content that emphasizes Common Core and today's renewed interest in nonfiction. Perfect for home, school, and library bookshelves!

The BBC's "face of space" explores all things lunar in this comprehensive guide to the folklore, facts, and possible futures of our only natural satellite. Have you ever wondered if there are seasons on the moon or if space tourism will ever become widely accessible? So has Dr. Maggie Aderin-Pocock, astronomer and host of the BBC's docuseries, *The Sky at Night*. In this lucidly written guide, Aderin-Pocock takes readers on a fascinating lunar journey. Aderin-Pocock begins with a basic overview—unpacking everything from the moon's topography and composition to its formation and orbit around

the Earth. She examines beliefs held by ancient civilizations, the technology that allowed for the first moon landing, a brief history of moonazing, and how the moon has influenced culture throughout the years. Looking to the future, she delves into the pros and cons of continued space travel and exploration. Throughout the book are sidebars, graphs, and charts to enhance the facts as well as black-and-white illustrations of the moon and stars.

Text and illustrations depict the varied seasonal full moons that change and assume personalities of their own throughout the year.

Book two in the award-winning young adult Austin Family Chronicles series from Madeleine L'Engle, author of *A Wrinkle in Time*, Vicky Austin experiences the difficulties and joys of growing up. As if simply being fourteen-years-old weren't bad enough—what with the usual teenage angst and uncertainty, Vicky Austin's always comforting and reliable home life is changing completely. Her brother John is going off to college in the fall. Maggy, an orphan taken in by the Austins two years ago, has gone to live with her legal guardian. And the rest of Vicky's family is moving from their quiet house in the country to the heart of New York City. But before the big move, the entire Austin family is taking a meandering trip across the country in their station
