Following both a patient and an employee through a physician visit, this is a "how-to" manual for implementing practice management solutions. The first section provides information and examples prior to the patient visit, and includes examples of physicians who utilize email and Web sites to attract patients, electronic scheduling systems to decrease wait time, and registration systems which can verify insurance information. The second section focuses on electronic medical records, electronic referral systems, billing and collection systems, and follow-up patient education and discharge information, thus portraying the "future physician office visit." The third section centres on the physician practice manager's daily operations and how technology can achieve efficacy.

Rheum for Improvement is a physician ' s account of how corporate medicine has transformed health care from a human interaction between a patient and their physician into a business transaction between a consumer and a provider. It is also a personal story of how frivolous legal action triggered that physician to become an outspoken advocate for health-care reform. It will be of interest to anyone who interacts with our health-care system, but especially physicians, who must navigate bureaucratic obstacles on a daily basis. As a patient, have you ever: --Had your health insurance deny a test or procedure that your doctor recommended by saying that it was not medically necessary? --Been told that you had to try one medicine before you could take the medicine that your doctor actually prescribed? --Had a procedure done that was covered by your insurer, only to receive a separate bill afterwards that you were not expecting? --Felt that your doctor has their nose buried in a computer instead of paying attention to you? If so, you are not alone. Rheum for Improvement addresses these and many other health-care issues that compromise the care that physicians can provide. It is a must read for anyone who has ever been or ever will be a patient.

- Best Selling Book in English Edition for IBPS RRB SO Marketing Officer Exam (Scale II) with objective-type questions as per the latest syllabus given by the Institute of Banking Personnel Selection.
