Financial Management is so crucial for any organization—public or private sector—as profit maximization and increasing the shareholder value depend, to a large measure, on efficient and effective financial management of the company or firm. With this end in view, Professor Bhabatosh Banerjee, drawing from his expertise and his rich and long years of experience, gives a masterly analysis of the fundamental principles of financial management along with their applications. While retaining the distinguishing features of the previous edition, the book is now a much more comprehensive one on Financial Management. Significant changes have been incorporated into the chapters relating to cost of capital, analysis of leverages, capital structure theories and planning, capital budgeting decision, working capital management, changes in financial position, accounting ratios and financial statement analysis, mergers and acquisitions and corporate governance for further value addition of the book. The book is logically organized into five parts—Part I: Basic Concepts, Part II: Financial and Dividend Decisions, Part III: Investing in Long-term and Short-term Assets, Part IV: Performance Analysis and Measurement, Part V: Contemporary Topics—to enable the students to understand the concepts, with suitable cases, chronologically and more effortlessly. This book is primarily intended as a text for the students of commerce and management courses. It will also be highly useful for those appearing in CA and ICWAI examinations. In addition, the text will benefit practising finance and accounting professionals, corporate managers, and participants in management development programs. **KEY FEATURES** • Includes numerous illustrations, worked-out problems and exercises covering recent questions in university and professional examinations. • Gives corporate practices in professional management, wherever found necessary. This will enable the students to acquaint themselves with real-life situations. • Provides Case Studies in a few complex chapters to enhance the analytical and presentation skills of the students in a classroom setting.

This comprehensive book critically examines and presents in detail, a conceptual framework on various components/structures of a formal financial system which includes financial institutions, financial markets, financial instruments/securities, financial services, financial regulations and regulatory authorities. Part D, Financial Institutions, includes 7 chapters to provide an in-depth knowledge about institutions functioning in the financial system. Part E, Financial Servicescomprises 10 chapters to put readers' attention towards financial services that do facilitate the components of core financial system. Part F, Financial Regulationsincludes 2 chapters to deliberate on the financial regulations and the role of regulatory authorities. The book is designed as an essential textbook for a course on Indian Financial System for both undergraduate and postgraduate students of management, economics, finance and commerce as well as other related professional courses, like ICAI, ICWAI, ICSI, ICFAI, and CAIIB. Key features • Includes Basel norms to manage risk in commercial banks. It also contains various current topics for the convenience of the readers. • Highlights changes and amendments brought in within the rules, regulations, and guidelines, made by the authorities, like SEBI and RBI. • Incorporated with pedagogical tools, such as tables, figures, appendices, review questions, and MCQs (on selected topics). • Solution manual containing answers to the MCQs and Numerical Problems is available on demand. • Includes an exhaustive glossary of terms to explain the core concepts. • PowerPoint slides available online at <http://phindia.com/das-financial-system-in-india> to provide integrated learning to the students.A

The Second Edition of the book encompasses two new chapters—Strategic Cost Management and Business Ethics—A Strategic Financial Management Instrument. The book, being an augmented version of the previous edition, equips the young managers with the fundamentals and basics of strategic management and financial management in a cogent manner. The text now provides a better orientation to the students on the topics like corporate restructuring, divestitures, acquisitions, and mergers in the global context with the help of examples and caselets. The book has been revised keeping in view the requirements of postgraduate students of management and the students pursuing professional courses such as CA, MFC and CS. In addition, professionals working in the corporate sector may also find the book beneficial to integrate the financial management functions into business strategy and financial operations. Distinctive features • Model question papers have been appended at the end of the book. • Better justification of topics by merging the contents wherever required. • Theory supported with caselets inspired from global as well as Indian context.
