But be sure to refer to service manual specifications for normal system operating pressures and the total refrigerant capacity of the system. If your AC causes your cab to smell like an old shoe, you need to clean out the system's evaporator coil.

Recharge, revive AC - at Agriculture.com

Refrigerant can be broken down into poisonous substances if it contacts cigarette ash. Do not introduce an open flame or hot metal in the immediate vicinity of refrigerant. Doing so can cause lethal gases to form. Never allow refrigerant to leak out into the atmosphere. If the refrigerant reservoir or air-conditioning system is opened, its ...

This [ambitious [and] delightful] (The New York Times) work of literary nonfiction interweaves the science and history of the powerful refrigerant (and dangerous greenhouse gas) Freon with a haunting meditation on how to live meaningfully and morally in a rapidly heating world. In *After Cooling*, Eric Dean Wilson braids together air-conditioning history, climate science, road trips, and philosophy to tell the story of the birth, life, and afterlife of Freon, the refrigerant that ripped a hole larger than the continental United States in the ozone layer. As he traces the refrigerant's life span from its invention in the 1920s (when it was hailed as a miracle of scientific progress) to efforts in the 1980s to ban the chemical (and the resulting political backlash), Wilson finds himself on a journey through the American heartland, trailing a man who buys up old tanks of Freon stockpiled in attics and basements to destroy what remains of the chemical before it can do further harm. Wilson is at heart an essayist, looking far and wide to tease out what particular forces in American culture—in capitalism, in our values—combined to lead us into the Freon crisis and then out. [Meticulously researched and engagingly written] (Amitav Ghosh), this [knockout debut] (New York Journal of Books) offers a rare glimpse of environmental hope, suggesting that maybe the vast and terrifying problem of global warming is not beyond our grasp to face.
