Learn from the Engagement Masters Education is a battle for attention. Whether you are a teacher trying to reach a classroom full of students or a parent trying to prepare your child for the world to come, getting our audience to just listen can be a real challenge. When students have access to personalized entertainment sitting in their pockets, anything that doesn't jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you're there, you're not only in a different world, you're in Walt Disney's world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in Galaxy's Edge, you are 100% engaged. Sights, sounds and even smells ensure that your brain is locked into the experience. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You'll improve your teaching and create a place students want to visit. In this book we'll learn from the world's greatest engagement masters--the Disney Imagineers. Through narrative visits to attractions throughout Disneyland and Disney California Adventure, you'll experience a visit to the park as we share memories and see how the Imagineers make it all work. We'll be guided by Imagineering icon Marty Sklar's Mickey's 10 Commandments of Theme Park Design as we turn our classrooms into the most engaging places on Earth!

One of the most important essays about the African-American experience in the United States is Zora Neale Hurston's How It Feels To Be Colored Me, originally published in The World Tomorrow in May 1928. Hurston's was an original voice in the first half of the 20th century. As she reflects on her early childhood in an all-black Florida town, and her first experiences in

later life feeling "different," Hurston largely focuses on the similarities we all share and on her own self-respect and identity. "Through it all, I remain myself." This short work is part of Applewood's "American Roots" series, tactile mementoes of American passions by some of America's most famous writers and thinkers.

This engaging textbook teaches students about the Middle Ages, from the fall of Rome to the Renaissance. Follow this story-based approach to world history as you meet numerous historical figures (including St. Patrick, Genghis Khan, Richard the Lionheart, Joan of Arc, and Martin Luther), visit medieval sites around the world, and trace the rise and fall of numerous empires and kingdoms. Volume 2 in this series for your junior high students includes: A conversational narrative that brings medieval history to lifeGorgeous photographs, artwork, and maps that help students visualize people, places, and eventsEducational features that dig deeper into the history of the Christian Church Throughout the course, students will see God's guiding hand through history. They will study the major events of the Middle Ages and delve into how society and culture developed and changed. Students will also study medieval civilizations spanning the whole globe, including the Byzantines, Anglo-Saxons, Muslims, Chinese, Japanese, Mongols, Mughals, Vikings, Normans, Russians, Songhai, and Aztecs!

This volume brings together some of the most exciting renaissance scholars to suggest new ways of thinking about the period and to set a new series of agendas for Renaissance scholarship. Overturns the idea that it was a period of European cultural triumph and highlights the negative as well as the positive. Looks at the Renaissance from a world, as opposed to just European, perspective. Views the Renaissance from perspectives other than just the cultural elite. Gender, sex, violence, and cultural history are integrated into the analysis.

For nineteenth-century Swiss historian Jacob Burckhardt, the Italian Renaissance was nothing less than the beginning of the modern world - a world in which flourishing individualism and the competition for fame radically transformed science, the arts, and politics. In this landmark work he depicts the Italian city-states of Florence, Venice and Rome as providing the seeds of a new form of society, and traces the rise of the creative individual, from Dante to Michelangelo. A fascinating description of an era of cultural transition, this nineteenth-century masterpiece was to become the most influential interpretation of the Italian Renaissance, and anticipated ideas such as Nietzsche's concept of the 'Übermensch' in its portrayal of an age of genius.

When Celeste Lassiter Massey is forced to live with her actress Aunt Valentina in Harlem, she is not thrilled to trade her friends and comfortable North Carolina for scary, big-city life. While Celeste experiences the Harlem Renaissance in full swing, she sees as much grit as glamour. A passionate writer, talented violinist, and aspiring doctor, she eventually faces a choice between ambition and loyalty, roots and horizons. The decision will change her forever.
