In the little Polish town of Goray, ravaged by a terrible pogrom, expectations of the 'End of Days' foretold by cabalists run high. Grief becomes joy as news arrives from the Holy Land of the second coming of the Messiah. Usurping power from the pious rabbi, the believers listen to the prophetess Rechele and prepare themselves for the Coming of the Lord, when they will wear golden jackets and eat marzipan candy in the heart of Jerusalem. As religious hysteria grips the town, spirits and demons are abroad at night, and the people grow weaker by the day. But perhaps it is not the spirit of the Lord who possesses the body and mind of Rechele, but Satan himself.

From the Nobel Prize – winning writer, a new collection of literary and personal essays *Old Truths and New Clichés* collects nineteen essays—most of them previously unpublished in English—by Isaac Bashevis Singer on topics that were central to his artistic vision throughout an astonishing and prolific literary career spanning more than six decades. Expanding on themes reflected in his best-known work—including the literary arts, Yiddish and Jewish life, and mysticism and philosophy—the book illuminates in new ways the rich intellectual, aesthetic, religious, and biographical background of Singer's singular achievement as the first Yiddish-language author to be awarded the Nobel Prize for Literature. Like a modern Montaigne, Singer studied human nature and created a body of work that contributed to a deeper understanding of the human spirit. Much of his philosophical thought was funneled into his stories. Yet these essays, which Singer himself translated into English or oversaw the translation of, present his ideas in a new way, as universal reflections on the role of the artist in modern society. The unpublished essays featured here include “ Old Truths and New Clichés , ” “ The Kabbalah and Modern Times, ” and “ A Trip to the Circus. ” *Old Truths and New Clichés* brims with stunning archival finds that will make a significant impact on how readers understand Singer and his work. Singer's critical essays have long been overlooked because he has been thought of almost exclusively as a storyteller. This book offers an important correction to the record by further establishing Singer as a formidable intellectual.

Boris Makaver, a wealthy Jewish businessman living in New York City after the Holocaust, endures the tribulations of his daughter, Anna, as she makes many unfortunate decisions in her love life. 25,000 first printing.

As messianic zeal sweeps through medieval Poland, the Jews of Goray divide between those who, like the Rabbi, insist that no one can "force the end" and those who follow the messianic pretender Sabbatai Zevi. But as hysteria and depravity increase, it becomes clear that it is not the Messiah who has come to Goray.

What exactly is goodness? Where is it found in the literary imagination? Toni Morrison, one of American letters' greatest voices, pondered these perplexing questions in her celebrated Ingersoll Lecture, delivered at Harvard University in 2012 and published now for the first time. Perhaps because it is overshadowed by the more easily defined evil, goodness often escapes our attention. Recalling many literary examples, from Ahab to Coetzee's Michael K, Morrison seeks the essence of goodness and ponders its significant place in her writing. She considers the concept in relation to unforgettable characters from her own works of fiction and arrives at conclusions that are both eloquent and edifying. In a lively interview conducted for this book, Morrison further elaborates on her lecture's ideas, discussing goodness not only in literature but in society and history—particularly black history, which has responded to centuries of brutality with profound creativity. Morrison's essay is followed by a series of responses by scholars in the fields of religion, ethics, history, and literature to her thoughts on goodness and evil, mercy and love, racism and self-destruction, language and liberation, together with close examination of literary and theoretical expressions from her works. Each of these contributions, written by a scholar of religion, considers the legacy of slavery and how it continues to shape our memories, our complicities, our outcries, our lives, our communities, our literature, and our faith. In addition, the contributors engage the religious orientation in Morrison's novels so that readers who encounter her many memorable characters such as Sula, Beloved, or Frank Money will learn and appreciate how Morrison's notions of goodness and mercy also reflect her understanding of the sacred and the human spirit.
