"Discusses the basic concepts: stresses involved and design procedures for simple machine elements"--

Providing extensive coverage and comprehensive discussion on the fundamental concepts and processes of machine design, this book begins with detailed discussion of the types of materials, their properties and selection criteria for designing. The text, the first volume of a two volume set, covers different types of stresses including direct stress, bending stress, torsional stress and combined stress in detail. It goes on to explain various types of temporary and permanent joints including pin joint, cotter joint, threaded joint and welded joint. Finally, the book covers the design procedure of keys, cotters, couplings, shafts, levers and springs. Also examined are applications of different types of joints used in boilers, bridges, power presses, automobile springs, crew jack and coupling.

In this comprehensive, practical guide, award-winning photojournalist Stacy Pearsall offers the techniques, guidance, and inspiration needed to succeed in the dynamic and exciting field of photojournalism. Starting with an overview of photojournalism and her experience as both a combat and domestic photographer, Stacy covers the basics of preparing for assignments, discussing such key topics as selecting suitable attire for different environments, assembling essential camera gear, developing the right approach for a story, and honing your shooting technique. beyond the fundamentals, Stacy then dives into the nitty-gritty details of photojournalism work, providing insights into living and working in harsh conditions, maintaining physical and mental health, and managing relationships with subjects. The book interweaves hundreds of Stacy's amazing photographs with stories of her experiences in the field, providing context for advice on everything from navigating unfamiliar locations, to properly exposing your images, to building innovative multimedia projects. Follow her into "the trenches" for the fascinating stories behind the shots, which show by example how to get the best photographs you can, even under the most challenging circumstances. Features stunning full-color images from some of the author's most dramatic moments as a photojournalist Offers insights on preparing for long-term assignments, working in austere environments, and reintegrating into society after a project Interweaves photography techniques with advice on interacting with subjects and creating compelling stories

Headphones are a very popular accessory in this day and age. Just about everyone owns a pair. The quality differs and not all of them meet the needs of their users. The purpose of this guide is to compare the different levels of quality for headphones and the different features of headsets in order to help you make sound judgment when deciding to purchase either one.

Making Innovation Las t considers the long term success of a firm. Authored by a trio of top international scholars who present pioneering new work on what it takes to create long term growth, the book examines the internal conditions that are likely to encourage sustainable innovation, as well as what a culture of innovation should look like.

"Reviews, goal setting, what to teach, learning styles, how to teach, planning and record keeping, resource addresses"--Cover.

Accompanying the 2001 exhibition that made its debut at a shop in Oxford Street, London, this title is in effect an inventory of the possessions that were broken down into their component parts during the installation.
