This Math Study Guide was created by Shevonica M Howell, a veteran math instructor and the private school founder of Academy of Scholars, Inc. Ms. Howell's passion for teaching has shown throughout the 90+ pages displayed within her "YOU TEACH IT" Math Study Guide as well as her dedication towards the teaching profession. Not only has Ms. Howell given step by step instructions for solving each of the math problems inside this guide, but many of the math steps are outlined in her own handwriting. The math terms that Ms. Howell has included along with the self-made Math Review at the end of this study guide are more than valuable. And both will be beneficial towards the readers' overall math success. Ms. Howell's zeal for teaching mathematics, her belief that all students can learn and her genuine love for the teaching profession as a whole, are just a few of the reasons Ms. Howell created the "YOU TEACH IT" Math Study Guide.

Eureka Math is a comprehensive, content-rich PreK – 12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics (CCSSM) and carefully sequences the mathematical progressions into expertly crafted instructional modules. The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location, unpacking the standards in detail so that both users and non-users of Eureka Math can benefit equally from the content presented. Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year, information on alignment to the instructional shifts and the standards, design of curricular components, approaches to differentiated instruction, and descriptions of mathematical models. The Study Guides can serve as either a self-study professional development resource or as the basis for a deep group study of the standards for a particular grade. For teachers who are new to the classroom or the standards, the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful. Teachers familiar with the Eureka Math curriculum will also find this resource valuable as it allows for a meaningful study of the grade level content in a way that highlights the coherence between modules and topics. The Study Guides allow teachers to obtain a firm grasp on what it is that students should master during the year. The Eureka Math Curriculum Study Guide, Grade K provides an overview of all of the Kindergarten modules, including Numbers to 10; Two-Dimensional and Three-Dimensional Shapes; Comparison of Length, Weight, Capacity, and Numbers to 10; Number Pairs, Addition and Subtraction to
