Pulitzer Prize-winning journalist David Maraniss, regarded by his peers as the nation's leading expert on Bill Clinton, sat in a darkened television studio in New York on the night of August 17 and watched the president deliver his curious apologia confessing that he had misled the nation about his relationship with Monica Lewinsky. As Maraniss, the author of *First in His Class*, the highly acclaimed Clinton biography, listened to the president's words that night, it struck him that he had heard them all before, though never in one speech, and that in those four and a half minutes Clinton had revealed all the contradictory qualities of his tumultuous life and political career. In this insightful new book, drawing from the

biography and his writings for The Washington Post, Maraniss dissects the speech as a revelation of the president's entire life. Alternately reckless and cautious, righteous and repentant, evasive and forgetful, relying on family and friends to protect him, affirming his faith in God and then turning to polls to tell him what the public would tolerate, communicating with the public over the heads of pundits and professionals, transforming his personal trauma into a political cause by attacking his and his wife's enemies, asking us all to put his troubles behind us, Clinton combined all his weaknesses and strengths in that one brief address. In the first section of The Clinton Enigma, Maraniss reflects as a biographer on his curious but revealing dealings with Clinton over the years. Then, after Clinton has spoken, Maraniss dissects the words and interprets the deeper meaning paragraph by paragraph, to show the roots and echoes from the president's past and to explain why Clinton acts and speaks as he does. With Bill Clinton, Maraniss writes, past is always prologue.

Looks at the life and political career of the former vice president, detailing the factors that have shaped his life, his beliefs, and his goals.

Presidential scholars, former and current policymakers, and a former president bring varied insights and analyses to consider the impact, influence, and legacy of the presidency of William Jefferson Clinton, the " 'New Democrat' from Hope, Arkansas." In the eight years between 1993 and 2001, the Clinton White House presided over a booming economy that included a budget surplus in Clinton ' s second term, oversaw the most significant welfare

reform since the New Deal, and wrestled with the challenge of developing a foreign-policy vision for the post–Cold War era. Structurally, the Clinton presidency expanded the office and responsibilities of the First Lady and the Vice President to an unprecedented degree, prevailed in a budget battle with Congress that included two government shutdowns, briefly employed a line-item veto until the Supreme Court declared that power unconstitutional, and endured the second impeachment of the chief executive in American history. The evolution and consequences of the increased power held by modern presidents became sharply evident during the Clinton years. In *The Clinton Presidency and the Constitutional System*, based on the Eleventh Presidential Conference at Hofstra University, readers are afforded a unique combination of scholarly analysis and the perspectives of former administration officials. Students and scholars of the presidency will glean important understandings from the balanced, judicious studies of the Clinton administration and their juxtaposition with firsthand recollections of some of the participants who defined and shaped those events.

A narrative account of the life of the Puerto Rican baseball star traces his impoverished childhood, victories during the 1960 and 1970 World Series games, humanitarian contributions, and ongoing legacy for Latino major league players.

This book challenges the idea that the mixing of religion and presidential politics is a new phenomenon. It explores how presidents have drawn on their religious upbringing, rhetoric, ideas, and beliefs to promote their domestic and foreign policies to the nation. This influence

## Get Free The Clinton Enigma A Four And A Half Minute Sch Reveals This Presidents Entire Life

is evident in Washington's decision to add "so help me God" to the presidential oath, accusations by Adam's supporters that Jefferson was an infidel, Lincoln's biblical metaphors during the Civil War, and FDR's call to fight against Nazi totalitarianism on behalf of Judeo-Christian civilization. It is also apparent in Truman's support for Israel, Eisenhower's Cold War decision to add "In God We Trust" on American currency, the debate over JFK's Catholicism, Jimmy Carter's born-again Christianity, Reagan's "Evil Empire" speech, Clinton's public repentance, and George W. Bush's "crusade" against Islamic terrorists. This volume explores these issues of religion and power in the presidencies of Washington, Jefferson, Madison, Lincoln, FDR, Truman, Eisenhower, JFK, Carter, Reagan, George H. W. Bush, Clinton, and George W. Bush through scholarly interpretations, primary sources, and illustrations.

Comprehensive and easy to navigate, "The Clinton Years" gives readers a full perspective of Bill Clinton's presidency, from his successful economic policies to his relations with Monica Lewinsky. This comprehensive A-to-Z reference contains more than 250 biographical entries examining the main politicians and foreign leaders during the administration, and includes a number of primary source documents such as presidential speeches and executive decisions.

What makes Bill Clinton tick? William Jefferson Clinton, the 42nd President of the United States is undoubtedly the greatest American enigma of our age -- a dark horse that captured the White House, fell from grace and was resurrected as an elder statesman whose popularity rises and falls based on the day's sound bytes. John Gartner's In Search of Bill Clinton unravels the mystery at the heart of Clinton's complex nature and why so many

## Get Free The Clinton Enigma A Four And A Half Minute Sch Reveals This Presidents Entire Life

people fall under his spell. He tells the story we all thought we knew, from the fresh viewpoint of a psychologist, as he questions the well-crafted Clinton life story. Gartner, a therapist with an expertise in treating individuals with hypomanic temperaments, saw in Clinton the energy, creativity and charisma that leads a hypomanic individual to success as well as the problems with impulse control and judgment, which frequently result in disastrous decision-making. He knew, though, that if he wanted to find the real Bill Clinton he couldn't rely on armchair psychology to provide the answer. He knew he had to travel to Arkansas and around the world to talk with those who knew Clinton and his family intimately. With his boots on the ground, Gartner uncovers long-held secrets about Clinton's mother, the ambitious and seductive Virginia Kelley, her wild life in Hot Springs and the ghostly specter of his biological father, Bill Blythe, to uncover the truth surrounding Clinton's rumor-filled birth. He considers the abusive influence of Clinton's alcoholic stepfather, Roger Clinton, to understand the repeated public abuse he invited both by challenging a hostile Republican Congress and engaging in the clandestine affair with Monica Lewinsky that led to his downfall. Of course, there is no marriage more dissected than that of the Clintons, both in the White House and on the Hillary Clinton presidential campaign trail. Instead of going down familiar paths, Gartner looks at that relationship with a new focus and clearly sees, in Hillary's molding of Clinton into a more disciplined politician, the figure of Bill Clinton's stern grandmother, Edith Cassidy, the woman who set limits on him at an early age. Gartner brings Clinton's story up to date as he travels to Ireland, the scene of one of Clinton's greatest diplomatic triumphs, and to Africa, where his work with AIDS victims is unmatched, to understand Clinton's current humanitarian persona and to find out why he is beloved in

## Get Free The Clinton Enigma A Four And A Half Minute Sch Reveals This Presidents Entire Life

so much of the world while still scorned by many at home. John Gartner's exhaustive trip around the globe provides the richest portrait of Clinton yet, a man who is one of our national obsessions. In Search of Bill Clinton is a surprising and compelling book about a man we all thought we knew.

From best-selling, award-winning biographer Nigel Hamilton, this is an insightful, prodigiously researched, and wonderfully readable account of Bill Clinton's first term in office. It shows how a well-meaning but naïve new president failed to assert true leadership in his first two years, and then illustrates how, in an astonishing act of self-reinvention, the president turned defeat into victory. Bill Clinton: Mastering the Presidency is a gripping tale of hubris and redemption—and a chronicle of one of the most dramatic reversals of fortune in modern American politics.

Grasping this vision honored by Judaism, Christianity, and Islam alike includes recognizing the dangers of zealous violence, the illusions of current crusading, and the promise of peaceful coexistence under international law.

A hinge moment in recent American history, 1995 was an exceptional year. Drawing on interviews, oral histories, memoirs, archival collections, and news reports, W. Joseph Campbell presents a vivid, detail-rich portrait of those memorable twelve months. This book offers fresh interpretations of the decisive moments of 1995, including the emergence of the Internet and the World Wide Web in mainstream American life; the bombing at Oklahoma

City, the deadliest attack of domestic terrorism in U.S. history; the sensational ÓTrial of the Century,Ó at which O.J. Simpson faced charges of double murder; the U.S.-brokered negotiations at Dayton, Ohio, which ended the Bosnian War, EuropeÓs most vicious conflict since the Nazi era; and the first encounters at the White House between Bill Clinton and Monica Lewinsky, a liaison that culminated in a stunning scandal and the spectacle of the presidentÓs impeachment and trial. As Campbell demonstrates in this absorbing chronicle, 1995 was a year of extraordinary events, a watershed at the turn of the millennium. The effects of that pivotal year reverberate still, marking the close of one century and the dawning of another.
