<b>From Bible teacher John MacArthur, a revelatory exploration of what the apostle Paul actually taught about the Good News of Jesus. The apostle Paul penned a number of very concise, focused passages in his letters to the early church that summarize the gospel message in just a few well-chosen words. Each of these key texts has a unique emphasis highlighting some essential aspect of the Good News of Jesus Christ. The chapters in this revelatory new book closely examine those vital gospel texts, one verse at a time. John MacArthur, host of the popular media ministry Grace to You, tackles such questions as: What is the gospel? What are the essential elements of the message? How can we be certain we have it right? And how should Christians be proclaiming the Good News to the world? As always, the answers John MacArthur gives are clear, compelling, well-reasoned, easy to grasp, and above all, thoroughly biblical. The Gospel According to Paul is written in a style that is easily accessible to lay people, including those who know very little about the Bible, while being of great value to seasoned pastors and experienced ministers. The Gospel According to Paul is the third in a series of books on the gospel by John MacArthur including ☺ The Gospel According to Jesus and The Gospel According to the Apostles. The Gospel According to Paul is also available in Spanish, Evangelio según Pablo.</b>
<b>"This compact theological primer from a widely respected scholar offers a well-integrated and illuminating approach to a variety of basic issues in the study of the New Testament"--Provided by publisher.</b>
<b>This volume presents a detailed case for the plausible literary dependence of the Gospel of Mark on select letters of the apostle Paul. The book argues that Mark and Paul share a gospel narrative that tells the story of the life, death, resurrection, and second coming of Jesus Christ "in accordance with the scriptures," and it suggests that Mark presumed Paul and his mission to be constitutive episodes of that story. It contends that Mark self-consciously sought to anticipate the person, teachings, and mission of Paul by constructing narrative precursors concordant with the eventual teachings of the itinerant apostle;a process Ferguson labels Mark's "etioloogical hermeneutic.☺ The book focuses in particular on the various (re)presentations of Christ's death that Paul believed occurred within his communities;Christ's death performed in ritual, prefigured in scripture, and embodied within Paul's person;and it argues that these are all seeded within and anticipated by Mark's narrative. Through careful argument and detailed analysis, A New Perspective on the Use of Paul in the Gospel of Mark makes a substantial contribution to the ongoing debate about the dependence of Mark on Paul. It is key reading for any scholar engaged in that debate, and the insights it provides will be of interest to anyone studying the Synoptic Gospels or the epistles of Paul more generally.</b>
<b>Paul was the most influential figure in the early Christian church. <b>‘Professor A. M. Hunter of Aberdeen has performed many valued services to the student world and to the busy pastor in his preaching and parish work; but no previous book of his is more timely in its appearance than The Gospel according to St Paul. The reason is obvious. It’ or here in short compass and in, a readable style, Prof.4lunter has distilled a great deal of New Testament teaching and much practical wisdom - and in a way which the preacher will find most palatable. But the timeliness of this book is nothing short of providential. In a day.when Paul is assailed by many moderns, this book comes with a refreshing positiveness and convincing appeal. And at a time when our youngsters are all eager to pick up the latest vagary, it is good to be reminded that Paul has still his contemporary defenders, who are concerned not so much to read into Paul their own ideas as to listen patiently to what his teaching contains. This surely is the supreme value of Dr Hunter's little book’ (Christian).</b>
<b>While the modern day Christian Church follows the Gospel of Paul, it wasn't always so. The early church followed the Gospel of Jesus. I doubt that many people realize that there are two Gospels and they are polar opposites. The church jumps through hoops and does all it can to synchronize Paul's teachings with Jesus' teachings, but it failed. When you read in this book the comparison of the two Gospels, you will see why they are incompatible. They are so incompatible that they can't both exist in the church, so the church has rejected Jesus' Gospel in favor of the Paul's Gospel of 'lawlessness'. The second half of the book deals with Paul. Many love Paul and his teachings, and embrace them in place of Jesus' teachings. Other see Paul as an anti-christ figure, teaching a Gospel that is the opposite of the Gospel Jesus taught. I lay out the facts, and you will have to decide for yourself.</b>
<b>This volume, which collects together the work of several established scholars attempts to situate the Apostle Paul, the Pauline writings, and the earliest Christian Gospels together in the context of early Christianity. It addresses the issue of how the Christianity depicted in and represented by the individual Gospels relates to the vision of Christianity represented by Paul and the Pauline writings.This raises such questions as to what extent did Paul influence the canonical and non-canonical Gospels? In what way are the Gospels reactions to Paul and his legacy? A comparison of the Gospels and Paul on topics such as Old Testament Law, Gentile mission, Christology, and early church leadership structures represents a fruitful area of study. While a number of volumes have appeared that attempt to assess the relationship between the historical Jesus and the Apostle Paul relatively few studies on Paul and the Gospels have been published. This volume excellently fills this gap in New Testament Studies and makes a valuable contribution to studies on Christian Origins, Pauline research, and the Gospels.</b>
<b>Over recent years some critics of Christianity have claimed that while Jesus was a gifted teacher and a man of unparalleled kindness, St. Paul was the true founder of Christianity, which he based on a delusional mistake--the idea that Jesus was God. Here, David Wenham looks at the historical evidence for such claims. Comparing the life and message of Jesus with the writings of St. Paul, he offers a thoughtful exploration of their relationship, concluding that far from imagining Christianity, Paul was the messenger of an inherited faith. --from publisher description.</b>
