Two White Rabbits Two White Rabbits, written by, Jairo Buitrago and Rafael Yockteng is an informational book that presents an early concept for children distinguishing the difference between one's wants and needs. Although this concept is not within the title or text, the message is very clear as a young girl and her father travel by sketchy means to arrive somewhere this young girl cannot find the answer to.

There is however another white rabbit in popular culture that more readily fits the criteria of being busy, or at least being obsessed with time for time itself, and not in order to get stuff done. Walt Disney's 1951 animated adaptation of Alice in Wonderland not only makes the white rabbit a more central character but gives him some memorable lines about time.
