In recent years there has been increased attention paid to the importance of assessment in Geographical Education, the chosen subject for this book.

Assessment is an important tool for

information about
student learning and

for providing timely

data to inform key

stakeholders

including students,

teachers, parents

and policymakers.

To be effective,

assessment needs

to be valid, reliable

and fair. Validity is

about ensuring that

Acces PDF

Waec 2014

we assess what we
claim we are
assessing.

Reliability is about
measuring
performance and
understanding in a
consistent way.

Without validity and
reliability,
assessment is
unlikely to provide
equitable
opportunities for

students to demonstrate what they know and can do. As geography

educators it is

therefore important

that we identify the

core concepts and

that we want

students to master.

We need a clear

assessment in

This is a concern
given the distinctive

role of assessment
in the learning
process. This
scholarly collection

seeks to address
this issue by
connecting research
in educational

the domain of
geography. The
chapters are
written by leading
researchers in

unifies the work in
this book, is that
